

Dear Colleague,

Thank you for your interest in the *Child Trauma Screening Instrument*. As this instrument is copyright, I ask that you advise me of your intended use and I will be happy to send it with my permission.

If you wish to use the instrument for research it is highly desirable that you forward a copy of your results to me, as this will allow me to build a database on the performance of the Child Trauma Screening instrument.

If you use the instrument in any publication, I ask that you cite it thus:

Kenardy, J., Spence, S., & Macleod, A. (2006). Screening for risk of Persistent Posttraumatic Morbidity in children following traumatic injury. *Pediatrics*. 118, 1002-1009.
