Donation & Enquiry Form

ETHICAL PARTNERSHIPS

The Faculty of Health Sciences aims to receive support from organisations and individual members of the community that meet a set of criteria. Primarily, our supporters and partners would be actively engaged in improving the health and well being of their clients, customers, employees, families, fraternities and the communities in which they operate. At the same time, they would avoid corporate investment in areas that contradict the ideals of health promotion and disease prevention such as armaments, alcohol and tobacco.

The Faculty of Health Sciences considers each supporter relationship on a case by case basis.
