Allianz Global Assistance welcomes you to Australia!

We understand that maintaining your health is an important part of making your stay in Australia as safe and enjoyable as possible.

Allianz Global Assistance is here to assist and provide services and information that make it easy to understand and use the health cover which is available to you, whilst studying in Australia.

What is OSHC?

Overseas Student Health Cover (OSHC) is health insurance for international students which provides cover for the costs of:

- Out of hospital medical treatment
- In hospital medical treatment
- Prescription medicines
- Surgically implanted prostheses
- Emergency ambulance transport

The Department of Health and Ageing (DHA) regulates OSHC and OSHC providers.

Why is OSHC important?

**Student Visa requirement**

The Australian Government through the Department of Immigration and Citizenship requires all holders of a Student Visa to maintain OSHC during their entire stay in Australia.

**Maintaining OSHC is a mandatory condition**

According to Student Visa condition 8501, overseas students who do not maintain their OSHC are at risk of having their visa cancelled.

**Medical treatment can be expensive**

Overseas students are not eligible for Medicare (the public health insurance system for Australian Residents). Without access to Medicare, overseas students may have difficulty paying for medical treatment. In most cases, hospital treatment will cost more than $800 per day.

---

**Section one:**

**OSHC Essentials policy**

**Who is eligible for OSHC?**

Overseas students are eligible for OSHC. You are an overseas student if you are:

(a) a person who is the holder of a Student Visa; or
(b) a person who
   i  is an applicant for a Student Visa; and
   ii is the holder of a Bridging Visa; and
   iii was, immediately before being granted the Bridging Visa, the holder of a Student Visa.

**Single or Family Cover**

Your Certificate of Insurance will show which cover and policy you have selected. Your cover may be either:

- **Single** – covering only the overseas student; or
- **Dual family** – covering the overseas student, and either one adult spouse or recognised de facto partner or one or more children or step-children under the age of 18 years who are not married; or
- **Multi family** – covering the overseas student and more than one dependant, which can only include one adult spouse or recognised de facto partner and one or more dependant children.

*Benefits payable as per the Medicare Benefits Schedule Fee

You may incur out of pocket costs for hospital expenses
How long do I have to be covered?

The Australian Government requires that you have continuous OSHC for the entire length of your stay in Australia.

You can purchase OSHC for the proposed length of your Student Visa (as provided by you to us).

Periods of cover:

1. Your OSHC Policy is only valid whilst you hold a current Student Visa and have paid the full premium required.
2. You are insured for the period of cover shown on your Certificate of Insurance, starting on the commencement date shown and ending on the expiry date shown.
3. Your cover ceases on the date of your departure from Australia, the date you cease to hold a Student Visa, or on the expiry date shown on your Certificate of Insurance, whichever occurs first. However if you leave Australia on a holiday but return prior to the expiry date shown on your Certificate of Insurance and you still hold a current Student Visa when you return, your cover will recommence on your return to Australia and continues for the remaining period of your cover.
4. The minimum period for which you must have OSHC cover is the duration of your Student Visa, unless a medical condition verified by a doctor and acquired during the term of your Student Visa has resulted in you being unfit to travel home. However you will be required to provide to DIAC evidence of continuous coverage by OSHC for the proposed duration of your Student Visa as a condition of being granted a Student Visa for that proposed duration.
5. It is a Student Visa requirement that OSHC must be continuous for the term of your Student Visa. If you allow your OSHC to lapse whilst on a Student Visa, and you wish to renew your OSHC during the duration of your Student Visa, you must pay the premiums for the lapsed period.
6. No benefits are payable for claims incurred by you during the lapsed period of your OSHC.
7. Regardless of the general exclusions listed in this policy, no additional waiting periods will apply to claims you make if you have allowed your OSHC to lapse whilst on a Student Visa and have since renewed your OSHC during the duration of your Student Visa.

Services which are not covered under your policy:

(a) services provided by physiotherapists, osteopaths, chiropractors, naturopaths or any other ancillary services
(b) medications, drugs or other treatments not prescribed by a doctor and not included in the PBS
(c) any costs associated with dental treatment, unless the services provided meet the requirements of the Medicare Benefits Schedule
(d) optical charges
(e) the co-payment payable by you under Australian law or as a result of the provider charging in excess of the Medicare Benefits Schedule Fee
(f) service fees charged by a doctor or hospital which are not included in the benefits covered under your policy.

General exclusions

Benefits are not payable for:

(a) for services and treatment rendered as part of an assisted reproductive program, including but not limited to in-vitro fertilisation;
(b) for treatment rendered outside of Australia, whether or not in connection with a course of study and including treatment necessary en route to or from Australia;
(c) for treatment arranged in advance of the dependant’s or overseas student’s arrival in Australia;
(d) for treatment rendered to a dependant or overseas student in the first twelve months after arrival in Australia where that treatment is for a pre-existing condition (other than a pre-existing condition of a psychiatric nature). This exclusion does not apply where a medical practitioner certifies, and we agree, that the dependant or overseas student required emergency treatment in Australia. We will not unreasonably withhold our agreement;
(e) where an application was made for a Student Visa by an onshore applicant, who previously did not hold a Student Visa, treatment rendered to a dependant or overseas student in the first twelve months after purchase of OSHC where that treatment is for a pre-existing condition (other than a pre-existing condition of a psychiatric nature). This
exclusion does not apply where a medical practitioner
certifies, and we agree, that the dependant or overseas
student required emergency treatment in Australia.
We will not unreasonably withhold our agreement;

(f) for treatment of secondary conditions or disabilities
directly arising from the conditions or disabilities to which
subclause (d) and (e) applies will be treated in accordance
with the provisions of subclause (d) and (e) respectively;

(g) treatment for a pregnancy related condition for a
dependant or an overseas student where total duration of
the overseas student's visa and any immediately preceding
visa is less than three months. If an overseas student on an
initial visa of less than three months duration obtains a new
Student Visa to increase their stay to three months or more
then this exclusion ceases from the date of issue of the
second visa;

(h) for transportation of a dependant or overseas student into
or out of Australia in any circumstance;

(i) for services and treatment which are covered by
compensation or damages, entitlements or payments of
any kind; and

(j) for elective cosmetic surgery.

For the purposes of these exclusions, the date of an overseas
student or dependant arriving in Australia, and whether or not
a condition is a pre-existing condition, will be determined in
accordance with the section 'Waiting period for pre-existing
conditions' below.

Waiting period for pre-existing conditions

There is a waiting period for pre-existing conditions

You cannot claim for costs arising during the waiting period if
such costs arise from a pre-existing condition (other than a
pre-existing condition of a psychiatric nature).

The waiting period is calculated as 12 months commencing from:

- the date you or your dependant (as the case may be) arrived
  in Australia; or
- the date your Student Visa was granted,

whichever is the later date.

A pre-existing condition is an ailment, illness or condition
the signs or symptoms of which (in the opinion of a medical
practitioner approved or appointed by us) existed in the period
of six months ending on the later of:

- the date you or your dependant (as the case may be) arrived
  in Australia; or
- the date your Student Visa was granted.

In forming this opinion, the medical practitioner must have
regard to any information in relation to the ailment, illness or
condition provided to that medical practitioner by the medical
practitioner who treated the ailment, illness or condition.

This includes an ailment, illness or condition that was present,
but had not been diagnosed by a medical practitioner at the
time of your arrival in Australia or the date your Student Visa
was granted, whichever is the later date.

A pre-existing condition includes a secondary related condition
or disability directly arising from a pre-existing condition.

The Australian healthcare system

It is very important that you have a good understanding of the Australian healthcare system. If you understand the healthcare system in Australia, you will be able to access the best and most effective treatment for you.

General practitioners

If you are not in a medical emergency situation, the first point of contact is a general practitioner (GP), medical practitioner or local health/medical centre. You can access many services at your local health centre. Some of the services available are:

- General medicine and simple diagnostic screenings.
- Assessment and treatment of health problems and injuries.
- First aid services as needed.
- Women’s and men’s health.
- Referrals to specialist services.

In most cases, it is necessary for you to make an appointment to see your doctor.
**Accident and emergency treatment**

Many hospitals have a 24 hour Accident and Emergency department. Accident and Emergency departments should only be accessed in the case of emergency situations. When you visit an accident and emergency department, a nurse will assess you and if your illness or injury is not deemed as an emergency, you may need to wait a long time to see a doctor.

**Hospital treatment**

If you have been admitted for emergency treatment, contact Allianz Global Assistance immediately on 1800 814 781. If you have been referred to hospital for a non emergency admission, contact the claim department on 1800 651 349 prior to admission. You will need to provide Allianz Global Assistance with the details of your treatment and hospital stay. We will then be able to confirm your cover and assist you with making arrangements for payment to the hospital.

**Public admission**

Generally, OSHC covers the total cost of your stay and treatment as an in-patient in a shared ward of a public hospital. As a public patient, your doctors will be nominated by the hospital. After your hospital discharge your care will be carried out in either the outpatient clinic, by one of the hospital’s specialists in his/her private rooms or you will be referred to your local general practitioner.

**Private admission**

You can choose to be treated in a private hospital. Through our relationship with Lysaght Peoplecare we have arrangements in place with most private hospitals in Australia. These agreement hospitals ensure that an agreed schedule of fees (including in-patient accommodation, theatre and special unit accommodation fees as appropriate) is charged by the hospital and paid by Allianz Global Assistance on a member’s behalf. You may incur out of pocket costs for private hospital expenses.

There are only a few private hospitals that are not part of these agreement hospitals. In these cases, we may not cover the full cost of your hospitalisation however, if you call us for a chat before you go into hospital we’ll be able to tell you how much it will cost you. Members who choose a non-agreement hospital may incur out of pocket expenses for hospital related services.

**How do I find a doctor**

**Direct billing services**

In order to minimise your medical expenses, you can attend a health service or doctor that direct bills Allianz Global Assistance. You can find your closest direct billing service on our website at www.oshcallianzassistance.com.au. You simply have to show your valid Allianz Global Assistance OSHC membership card, and the bill for the covered portion of your service will be sent directly to Allianz Global Assistance.

**Other medical providers**

You can attend any other medical practice or doctor in Australia. In most cases, you will be required to pay the bill, and submit a claim to Allianz Global Assistance in order to get your benefit reimbursed. Some medical practices or doctors may charge more than the benefit payable, in which case you will be required to pay a co-payment that is not covered by your policy.
