UQ GUIDE 2016
UNDERGRADUATE PROGRAM SUPPLEMENT
REVISED EDITION
The 2016 UQ Undergraduate program supplement for international students is a companion booklet to the International UQ Guide 2016, which can be found online at www.uq.edu.au/international-students/uq-guide

HOW TO USE THIS SUPPLEMENT

1. Choose a program (you can choose by area of interest or, if you know what you’re looking for, by program name)
2. Check the English language requirements (page 33 of this booklet)
3. Check the application closing date (page 29 of this booklet)
4. Follow the instructions on page 37 of this booklet to submit your application

If at any point you would like more detailed information about a program, you can look it up on our courses and programs website: www.uq.edu.au/study or download the UQ International Student Guide app: www.uq.edu.au/international-students/study-guide-app

Information about UQ's study environment, refund policy, legal rights and support services, as well as information for students living with families, and estimated costs for living in Brisbane can be found in the International UQ Guide 2016 or at www.uq.edu.au/international-students

Disclaimer
The inclusion in this publication of details of a program or a course creates no obligation on the part of the University to teach it as or when described. The University may discontinue or vary programs and courses at any time without notice. Information in this guide is accurate as at July 2015.

While care has been taken to provide accurate information in this prospectus, it is the responsibility of students to check and confirm the specific details of programs, courses and enrolment.

All costs and fees quoted in this publication are in Australian dollars (AU$) unless otherwise indicated.

Any agreement with this University does not remove the right to take action under Australia’s consumer protection laws.

Australian Consumer Protection

ESOS compliance
The provision of education services to international students by Australian education institutions is governed by the Education Services for Overseas Students (ESOS) Act 2000 and the National Code of Practice for Registration Authorities and Providers of Education and Training to Overseas Students 2007.

The University of Queensland, in providing education services to overseas students, complies with the National Code of Practice of the Department of Education and the Universities Australia code of ethical practice.

CRICOS Provider Number 00025B
ESOS Act

Privacy
The University complies with Australian and Queensland privacy laws and guidelines.

Privacy
www.uq.edu.au/privacy

Tuition fee refunds
Refer to page 50 of the International UQ Guide 2016 for information about tuition fee refunds, or go to ppl.app.uq.edu.au/content/3.40.03-international-student-refunds.

This publication was produced by
The University of Queensland Office of Marketing and Communications, UQ International, and Academic Services Division.
# CHOOSE A PROGRAM

Use this list to locate an individual program, or if you aren’t quite sure what you want to study yet, flip to one of the highlighted areas of interest to browse all the programs on offer in that study section.

AGRICIBUSINESS, AGRICULTURE, ENVIRONMENT AND SCIENCE

Whether you are interested in agriculture, plant and animal sciences, the environment, mathematics or chemistry, UQ will help you develop the specialist scientific skills you need to undertake a key role in solving the challenges facing our world today.

SHI LIY REENIE CHIN, SINGAPORE
Bachelor of Science (Chemistry)

"UQ is internationally renowned for its highly awarded teaching staff and world-class research facilities. Undergraduate science students have many opportunities to take part in research and I completed two substantial projects during my studies. The lecturers and academic staff were very helpful and took very good care of me."

UQ has:

- more than 1800 laboratories, including specialist teaching and research labs, giving you more lab time and research opportunities than any other university in the state.
- Australia’s most extensive marine science teaching and research facilities including the Heron Island and the Moreton Bay research stations off Queensland’s east coast.
- exciting field trips in selected courses that can take you from the Great Barrier Reef and Moreton Bay to Lamington National Park and Mt Isa.
- the most modern veterinary science facilities in the southern hemisphere and the most comprehensive animal research and teaching centre in Australia.
FEATURED PROGRAM:
Bachelor of Science

The Bachelor of Science is a versatile degree that provides you with the optimal balance between a defined sequence of study and flexible course options. With majors ranging from Archaeological Science to Zoology, you will study an extensive range of courses underpinned by cutting-edge research, and develop high levels of initiative, independent thinking and communication skills.

This innovative program has been designed to develop graduates with the key practical skills in a chosen discipline plus interdisciplinary knowledge required to address today’s global challenges. Graduates will be qualified for employment opportunities in a wide array of science and non-science industries.

In the Bachelor of Science, you will complete a specialisation – whether it be a major, an extended major or a dual major – in your chosen area of science plus a number of elective options. Tailor your study plan according to your interests and explore the flexibility to incorporate up to one third of your courses from other UQ programs.

PROGRAM STRUCTURE:

<table>
<thead>
<tr>
<th>OPTION 1: BSc with one major</th>
<th>OPTION 2: BSc with two majors</th>
<th>OPTION 3: BSc with extended major or dual major</th>
</tr>
</thead>
<tbody>
<tr>
<td>32 units** from the Bachelor of Science course list^, including • Statistics course (STAT1201) (2 units) • Science courses in chosen major (14 units) • Other science courses from the BSc course list (14 units)</td>
<td>36 units from the Bachelor of Science course list, including • Statistics course (STAT1201) (2 units) • Science courses in first major (14 units) • Science courses in second major (14 units) • Other science courses from the BSc course list (6 units)</td>
<td>32 units from the Bachelor of Science course list, including • Statistics course (2 units) • Science courses from either extended major or dual major (22 units) • Other science courses from the BSc course list (8 units)</td>
</tr>
<tr>
<td>Electives (16 units)</td>
<td>Electives (12 units)</td>
<td>Electives (16 units)</td>
</tr>
</tbody>
</table>

Electives: Choose science courses or courses from across UQ such as music, history, business, or most other undergraduate courses; or choose a combination of both.

**Each course at UQ is generally comprised of 2 units.

^BSc course list available at www.uq.edu.au/study/program_list.html?acad_prog=2030.

Bachelor of Science majors

Majors – Gatton
• Animal and Veterinary Bioscience*
• Soil and Plant Bioscience*

Majors – St Lucia
• Archaeological Science*
• Biochemistry & Molecular Biology
• Biomedical Science*
• Chemistry
• Computer Science*
• Ecology
• Food Science*
• Genetics
• Geographical Science

• Geological Sciences*
• Marine Biology*
• Marine Science
• Mathematics*
• Microbiology
• Physics*
• Plant Science
• Psychology*
• Statistics
• Zoology

*Also available as an extended major.

Please check the following list for basic information about UQ’s science undergraduate programs, including academic and English language entry requirements, indicative annual program fees, program duration, start semesters and majors. To access more detailed information about the Faculty of Science, visit www.science.uq.edu.au.
**Bachelor of Advanced Science (Honours)**

This elite program provides you with the foundation for a research career, with continuous interaction with researchers from your first year of study. You will visit research laboratories, conduct a research project in your final year, and be mentored by academics. You will interact with other high-achieving students and be exposed to cutting-edge technologies and discoveries to put you at the forefront of the next generation of scientists.

**Admission requirements**

Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B, plus two of Agricultural Science, Biology, Chemistry, Earth Science, Mathematics C or Physics

Further study options

MPhil, PhD

Closing Date

See page 29

**Placements:** 30 days approved industry practice in at least two positions in agribusiness must be completed before enrolling in AGRC3000

**Bachelor of Agribusiness**

You will study business management, market research and marketing, finance, strategy, and business sustainability, with a specialist orientation to food and fibre industries. Through a range of elective courses, you can tailor your studies to your preferred area of interest or career path within agribusiness.

Further study options

Bachelor of Agribusiness (Honours), Graduate Certificate in / Master of Agribusiness, MPhil, PhD

Closing Date

See page 29

**Placements:** Six-month internship in an agricultural production enterprise, agribusiness or research institution

**Practical opportunities:** Some courses within this program offer an international study tour. See science.uq.edu.au/practical-opportunities.

**Special note:** Some external courses may require residential school attendance

**Bachelor of Agricultural Science (Honours)**

The most comprehensive of UQ’s agricultural programs, this program will develop your expertise in a wide range of life, land and management sciences, enabling you to understand complex interactions in agricultural systems. You will gain an appreciation of the relationships between agricultural and natural systems and be ready to meet the challenge of integrating sound technical management sciences, enabling you to understand complex interactions in agricultural systems. You will gain an appreciation of the relationships between agricultural and natural systems and be ready to meet the challenge of integrating sound technical management sciences, enabling you to understand complex interactions in agricultural systems.

Bachelor of Biotechnology (Honours)

Biotechnology applies scientific and engineering principles to living organisms to produce products and services of value to society. It is used in processes ranging from cheese production, brewing, and wastewater management, through to drug design and gene therapy. This program focuses on developing skills relevant to industry as well as applied biotechnology research. It provides a strong scientific foundation and is taught by staff who are actively engaged in research. From second year on, you will be exposed to commercial and intellectual property concepts that are relevant and important in biotechnology. Eligible students will have the option to undertake additional research in the final year.

Majors
- Biotechnology
- Bioprocess technology
- Chemical biotechnology
- Drug design and development
- Microbial biotechnology
- Molecular biotechnology
- Nanotechnology
- Plant biotechnology
- Innovation management plus a Biotechnology major

Admission requirements
- Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B and one of Chemistry or Physics (or acceptable alternative)
- Dual degree programs Engineering (Honours)
- Further study options Master of Business, PhD

Closing Date
See page 29

Bachelor of Environmental Management (Honours)

Gain the skills to address many of the challenges faced by our environment, both locally and globally. Bridging the gap between science and management, this program incorporates fundamental biophysical and social sciences, and multidisciplinary skills in environmental management, decision making and policy analysis. You will develop the ability to manage complex problems that threaten the survival of natural systems, and study the social, cultural, economic, legal and management aspects of environmental management.

Majors
- Natural systems and wildlife
- Sustainable development

Admission requirements
- Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative)
- Further study options PhD

Closing Date
See page 29

Bachelor of Environmental Science (Honours)

Develop your scientific skills, knowledge and understanding of the legal, political and social aspects of environmental management to contribute to the solution of the world’s environmental challenges. Through the Bachelor of Environmental Science (Honours) you will address these topics and develop skills in systems analysis and planning. Study fundamental environmental processes, the way they can be described, monitored and predicted, and the effect of human impact on the physical and biological environment.

Majors
- Earth resources
- Ecology and conservation
- Environmental toxicology
- Natural resource science

Admission requirements
- Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B and one of Chemistry or Physics
- Further study options PhD

Closing Date
See page 29

Bachelor of Food Technology (Honours)

Food scientists and food technologists study the physical, microbiological and chemical makeup of food to improve taste, quality, appearance, nutritional value and food safety. Be part of this growing area of science. You will develop the skills for a career in this field, with opportunities to apply your knowledge in all stages of food production, from raw material harvesting until it reaches the consumer. You will examine the optimisation of food quality, quantity and processing, food safety and nutritional value, and the means of production, processing, preservation, distribution and use. This program prepares you for employment in technical and scientific food manufacturing industries and does not cover the domestic cooking, catering or hospitality fields.

Majors
- Food technology
- Chemical technology
- Biological technology

Admission requirements
- Queensland Year 12 (or equivalent), including Year 12 English, Chemistry and Mathematics B
- Further study options Graduate Certificate in / Master of Food Studies, PhD

Closing Date
See page 29
Bachelor of Science

UQ’s flagship science program, this degree can be tailored to meet your individual needs and interests. You can select course combinations from science and non-science in first year, and then focus on one or two specialist areas in second and third year. Upon graduation, you will have highly developed levels of personal initiative, be able to work collaboratively, understand the interdisciplinary nature of science, possess superior technical skills, understand sustainability, be able to communicate to the wider community and be immediately employable.

**Dual degree programs**
- Arts, Business Management, Commerce, Economics, Education (Secondary), Engineering (Honours), Information Technology, Journalism, Laws (Honours), Music, Music (Honours)

**Further study options**
- Bachelor of Science (Honours); a range of Graduate Certificates, Graduate Diplomas, Masters and PhD programs

**Special note:** Honours year commences three weeks before the start of Semester 1 in the standard academic calendar (i.e. early February); for Semester 2, Honours year commences at the start of the standard academic calendar. See science.uq.edu.au/practical-opportunities.

Bachelor of Veterinary Science (Honours)

This program prepares you to work as a veterinarian in the care and welfare of animals. You will learn how to apply medical, diagnostic, and therapeutic principles to the care of companion, domestic, exotic, wildlife, and production animals. Veterinary science is vital to the study and protection of animal production practices, herd health, and monitoring of the spread of diseases. Human health is protected by veterinary science working closely with many medical professionals to carefully monitor livestock health, and apply knowledge of epidemiology and emerging zoonotic diseases.

**Closing Date**
- See page 29

**Placements:** Eight weeks vacation work by end of Year 3, eight-week clinical practical in Year 4, three weeks specialist practice in Year 5

**Special note:** You must pass all courses listed for any given semester to be able to progress to the next semester.
Indicative full-time fee
The indicative annual fee is calculated based on a standard full-time study load in 2016 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1, should be pro-rated.

UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 29 for more details.

Dual major (DM)
Combination of two different disciplines in one major.

Extended major (EM)
These majors provide you with the option of studying 24 units in one field, gaining deeper knowledge in that discipline. Some fields require extended majors for progression to Honours.
BUSINESS, ECONOMICS AND LAW

The Faculty of Business, Economics and Law offers a variety of undergraduate and postgraduate programs which allow for a wide range of specialisation with a high degree of relevance to employers. Programs are designed for students with aspirations of becoming leaders in the “business and law” sectors and to help develop their expertise and equip them for a rewarding career.

HU JUNJIE DANIEL, SINGAPORE
Bachelor of Commerce (Finance)

“The Bachelor of Commerce offers a good foundation in fundamental commerce principles that are essential yet versatile to prepare us for a wide range of career options. Majoring in finance enables me to pursue my interest in understanding the financial market. Moreover, the focus on problem solving hones my critical thinking which will allow me to more effectively contribute to my career”

MBA Ranking

16 in the world (The Economist) 2014 – the leading MBA outside of Europe and North America.

TOP MBA provider in Australia (AFR BOSS Magazine) 2013

★★★★★ UQ’s MBA has received a five-star rating by Australia’s most influential rating body, the GMAA, for ten years in a row.

School of Economics Ranking

38 in the world (RePec top 25% Economics Departments) 2015

ACCREDITATIONS

• First business school in Australia to gain dual accreditation from AACSB International and EQUIS - the most prestigious standards a business school can achieve.
• Our programs (degrees) are accredited with professional associations such as the Royal Institute of Chartered Surveyors (RICS), CPA Australia, the Australian Institute of Chartered Accountants (ICAA), the Association of Chartered Certified Accountants (ACCA), Australian Human Resources Institute (AHRI), Australian Computer Society (ACS), Australian Property Institute (API) and the Australian Securities & Investment Commission (ASIC).
FEATURED PROGRAM:
Bachelor of Commerce

The Bachelor of Commerce program prepares you for a career in accounting, banking, financial management, information systems and management.

Compulsory courses in the degree build a solid foundation of business skills that you will apply to many decisions and issues in the contemporary business environment. These core skills are then further developed in your second and third years as you specialise by undertaking one or two majors. Commerce majors are in accounting, business information systems and finance.

Completion of the degree with the accounting major, for example, allows students to apply for associate membership of the professional accounting bodies.

The combination of core skills and specialist knowledge learned in the Bachelor of Commerce will ensure you can adapt effectively to the ever-changing business environment and as a result be in high demand with employers. UQ Business School's lecturers and tutors are industry leaders and our vast network of industry contacts means you can develop practical experience at some of the world's leading companies.

PROGRAM STRUCTURE:

COMPULSORY COURSES (12 courses):
- Accounting for Decision Making
- Financial Reporting
- Principles of Management Accounting
- Introductory Microeconomics
- Introductory Macroeconomics
- Quantitative Economic & Business Analysis A
- Financial Management
- Business Law
- Computer-based Information Systems
- Introduction to Management
- Foundations of Marketing
- Integrated Commerce in Practice

MAJOR

ACCOUNTING
(Students must complete at least 6 courses from the following):
- Auditing & Public Practice
- External Reporting Issues
- Accounting for Corporate Structures
- Management Accounting
- Advanced Management Accounting
- Corporations Law
- Income Tax Law

BUSINESS INFORMATION SYSTEMS
(Students must complete all 6 courses from the following):
- Business Information Systems
- Systems Analysis & Design
- Data and Information Management
- Database Management in Business
- Managing the Virtual Organisation
- Managing Information Systems & Services

FINANCE
(Students must complete at least 6 courses from the following):
- Introductory Econometrics
- Financial Markets & Institutions
- Corporate Finance
- Investments & Portfolio Management
- International Financial Management
- Banking & Lending Decisions
- Derivatives and Risk Management

ELECTIVES

Students may select courses from the list below or from other courses across UQ. For full details of rules and requirements, please visit www.uq.edu.au/study

- Auditing & Public Practice
- External Reporting Issues
- Accounting for Corporate Structures
- Management Accounting
- Advanced Management Accounting
- Business Information Systems
- Quantitative Economic & Business Analysis B
- Introductory Econometrics
- Financial Markets & Institutions
- Applied Econometrics for Microeconomics and Finance
- Corporate Finance
- Investments & Portfolio Management
- International Financial Management
- Banking & Lending Decisions
- Derivatives and Risk Management
- Foundations of Electronic Commerce
- Electronic Commerce Systems Development
- Systems Analysis & Design
- Corporations Law
- Income Tax Law
- Business and Taxation
- Data and Information Management
- Database Management in Business
- Electronic Commerce Infrastructure Management
- Managing the Commercial Internet
- Managing the Virtual Organisation
- Managing Information Systems & Services

Please check the following list for basic information about UQ's business, economics and law undergraduate programs, including academic and English language entry requirements, indicative annual program fees, program duration, start semesters and majors. To access more detailed information, visit www.bel.uq.edu.au or www.uqcollege.edu.au (for the Associate Degree in Business only).

### Bachelor of International Hotel and Tourism Management

This program will equip you with core business skills, such as human resources, finance and marketing, to enable you to enter the global tourism industry. It incorporates a range of compulsory courses, including a Professional Development course that will give you insights into the industry, and a choice of three majors that will then allow you to extend this learning in a professional context.

<table>
<thead>
<tr>
<th>Majors</th>
<th>Event management</th>
<th>Hospitality management</th>
<th>Tourism management</th>

#### Admission requirements
- Queensland Year 12 (or equivalent), including Year 12 English, Mathematics A or any combination of Mathematics A, B or C
- **Special note:** If you have completed prior tertiary education, you may be eligible for advanced standing/credit transfer

#### Dual degree programs
- Arts, Business Management

#### Further study options
- Bachelor of International Hotel and Tourism Management (Honours); Graduate Certificates, Graduate Diplomas, Masters and PhD programs

#### Closing Date
- See page 29

### Bachelor of Laws (Honours)

The Bachelor of Laws (Honours) (LLB(Hons)) will provide you with an education in the law that is distinguished by its rigour, depth and conceptual sophistication. You will gain a thorough understanding of the concepts, principles, policies and values of the law both in Australia and other jurisdictions. You will also develop outstanding skills in critical analysis, thought and argument, skills which will be valuable in whatever career you choose. As well as courses required for professional admission, the LLB (Hons) offers a range of elective courses and extra-curricular activities that provide opportunities to put the knowledge acquired in the classroom into a practical context, and enhance transferable skills such as advocacy and negotiation.

#### Admission requirements
- Queensland Year 12 (or equivalent), including Year 12 English
- **Special note:** If you have completed prior tertiary education, you may be eligible for advanced standing/credit transfer

#### Dual degree programs
- Arts, Business Management, Commerce, Economics, Journalism, Science

#### Further study options
- Master of Laws, Master of International Commercial Law

#### Closing Date

*Indicative full-time fee*

The indicative annual fee is calculated based on a standard full-time study load in 2016 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1 or Trimester 1, should be pro-rated.

UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 29 for more details.
ENGINEERING, ARCHITECTURE AND PLANNING, AND INFORMATION TECHNOLOGY

Discover a career where you create imaginative and visionary solutions to global challenges including food, water, energy, health, infrastructure, technology and materials to improve the world we live in.

YUTONG ZHU, CHINA
Integrated Bachelor of Engineering (Honours) and Master of Engineering in Chemical Engineering

“Every student in the BE(Hons)/ME Program is required to complete a six-month industrial or research placement, and I was fortunate enough to undertake a research placement with Georgia Institute of Technology in the United States.

The BE(Hons)/ME program provides me with practices to improve my abilities in many aspects and offer comprehensive knowledge in chemical engineering, which will be helpful to me when looking for a job.”

- Engineers Australia

INDUSTRY PARTNERSHIPS

Studying Engineering at UQ provides you with practical experience through site visits, vacation work and industry placements. You will complete project work, on-site learning and work experience at real industry work places as a core component of your degree.
FEATURED PROGRAM:
Bachelor of Engineering (Honours)

UQ offers the largest choice of engineering specialisations, a wide range of quality resources, and access to award-winning teachers and researchers. You can choose to study in the Bachelor of Engineering (Honours) or the Integrated Bachelor of Engineering (Honours) / Master of Engineering.*

PROGRAM STRUCTURE:

Year 1 – Flexible first year

Compulsory courses
- Engineering Design
- Engineering Modelling and Problem Solving
- Calculus and Linear Algebra
- Multivariate Calculus and Ordinary Differential Equations

Choose remaining courses from:
- Introduction to Electrical Systems
- Engineering Mechanics: Statics & Dynamics
- Engineering Thermodynamics
- Introduction to Software Engineering
- Earth Processes & Geological Materials for Engineers
- Principles of Biological Engineering
- Elective

Year 2 – Choose specialisation

Choose:
- Calculus & Linear Algebra or Advanced Calculus and Linear Algebra
- and courses within specific engineering specialisation below:

<table>
<thead>
<tr>
<th>Chemical</th>
<th>Chemical and Materials</th>
<th>Chemical and Metallurgical</th>
<th>Civil</th>
<th>Civil and Environmental</th>
<th>Civil and Geotechnical</th>
<th>Electrical</th>
<th>Electrical and Biomedical</th>
<th>Electrical and Computer</th>
<th>Mechanical</th>
<th>Mechanical and Aerospace</th>
<th>Mechanical and Materials</th>
<th>Mechatronics</th>
<th>Mining</th>
<th>Mining and Geotechnical</th>
<th>Software</th>
</tr>
</thead>
</table>

Year 4 – Thesis / Design Project

16 units of BE(Hons) Design / Projects / Thesis and discipline specific advanced engineering electives

*For more information about UQ’s engineering programs, including academic and English language entry requirements, indicative annual program fees, program duration, start semesters and majors, please check the following list of programs or visit www.eait.uq.edu.au
Bachelor of Architectural Design

The program develops you as a technical specialist and leader who understands the multi-disciplinary dimensions and global challenges of your chosen field. Designed to produce globally competitive graduates for challenging professional practice and research opportunities, this new and innovative, integrated program will provide additional depth in engineering studies. The program will develop you as a technical specialist and leader who understands the multi-disciplinary dimensions and global challenges of your chosen field. The program will be accredited at the Masters level with Engineering Australia, leading ultimately to registration as a professional architect.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative).

Further study options
Master of Architecture

Closing Date
See page 29

Bachelor of Engineering (Honours)

UQ Engineering offers the largest choice of engineering specialisations in Queensland, a wider range of quality resources, and access to more award-winning teachers and researchers – creative problem solvers, intellectual leaders and global thinkers – than any other university in Queensland. We have a reputation founded on commitment to ingenuity and excellence. This, along with strong links with industry, research and government, ensures our programs are industry relevant and provide you with exceptional opportunities for employment and a university experience like no other. This flexible program allows you to either enrol directly into your chosen specialisation, or choose a specialisation at the start of second year so that you can keep your options open and experience the many varieties of engineering before deciding.

Admission requirements
Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B, and one of Physics or Chemistry (or acceptable alternative). Both Chemistry and Physics, Mathematics C are recommended.

Dual degree programs
Arts, Biotechnology, Business Management, Commerce, Economics, Information Technology, Science

Further study options
Bachelor of Engineering (Honours) and Master of Engineering Science, Master of Engineering Science, Master of Engineering Science, Management (Management)

Closing Date
See page 29

Bachelor of Engineering (Honours) and Master of Engineering

Designed to produce globally competitive graduates for challenging professional practice and research opportunities, this new and innovative, integrated program will provide additional depth in engineering studies. The program will develop you as a technical specialist and leader who understands the multi-disciplinary dimensions and global challenges of your chosen field. The program will be accredited at the Masters level with Engineering Australia, leading ultimately to registration as a professional engineer.

Admission requirements
You must have completed at least 48 units of study (~ 3 years F/T) with an appropriate major towards a Bachelor of Engineering (Honours) or Bachelor of Engineering (Honours) dual degree with a grade point average of at least 5 on a 7-point scale

Closing Date
See page 29
Bachelor of Information Technology

This program builds a solid foundation in software and hardware through first-class teaching and industry-focused projects. Flexible study plans allow you to specialise in one of six areas. With teaching informed by the latest research, the program is project-focused. You will study programming languages, algorithms and information structure, and develop the ability to process data or information in order to solve problems. In addition to a solid foundation of technical skills, you will learn team dynamics, presentation skills and project management to prepare you no matter where you choose to take your IT career.

**Special note:** Many industry-sponsored scholarships and prizes are available: see www.itee.uq.edu.au/future-scholarships

**Program:** Bachelor of Information Technology

**Practical opportunities:** Some courses within this program offer a practical placement, field trip or international study tour. See science.uq.edu.au/practical-opportunities

**Bachelor of Multimedia Design**

Studio-based, this program will give you the knowledge and skills to become a designer, architect and implementer of highly sophisticated interactive projects that creatively engage an audience, whether for a corporate presence on the web, developing mobile apps, or designing new ways to interact with digital information. You will combine theory with technology and apply them practically in design projects. Choose from a wide range of studio areas including design thinking, graphic design, digital prototyping, physical computing, internet authoring, human-computer interaction, and social and mobile computing. You will work on a number of individual and team projects in a studio environment to build a portfolio of many different projects and may also undertake projects with industry clients, or as an intern on industry placements.

**Bachelor of Regional and Town Planning**

This program prepares you to be a leader in the planning field and to improve the quality of life in cities and regions. Much focus is on sustainability with key planning elements centred around the topics of land-use planning, urban design, economic development, planning practice, infrastructure planning, resource management, and planning law. The program emphasises applying planning theory and developing skills through project work that varies in complexity from simple, small-scale projects to comprehensive development schemes, often in conjunction with local authorities and community organisations.

HEALTH

UQ offers the widest range of health study areas in an Australian university with programs in biomedical sciences through to medicine, nursing, public health, physiotherapy, behavioural sciences and more. Kick-start your career in health at UQ and benefit from award-winning lecturers, a variety of clinical placement opportunities and internationally recognised research leaders.

"There is a sense of camaraderie between students at PACE (Pharmacy Australia Centre of Excellence). The pharmacy courses are structured with horizontal and vertical integration making it easier to study."

UQ RANKINGS

QS world university rankings by subjects 2014

ACCREDITATIONS

Students training to be health professionals are accredited with relevant professional bodies via the Australian Health Practitioner Regulation Agency. UQ works with health agencies and industry groups to develop the curriculum for pre-professional health programs to ensure our students graduate confident and job-ready.

GLOBAL PARTNERSHIPS

UQ works with healthcare centres, clinical schools, universities, health-industry organisations and health agencies around the world to create opportunities for students to gain international study experiences, tackle important global health issues, and establish worldwide networks to enhance global employment and research opportunities.

Some of our global partnerships:
- World Health Organisation
- The World Bank
- Médecins Sans Frontières
- University of Oxford
- Ochsner Health System (USA)

GLOBAL EDUCATION NETWORKS

Our membership of global education networks, such as tropEd and Biomedical Education Skills and Training Network instills international perspectives in graduates from health programs.

WORLD-CLASS FACILITIES AND RESEARCH PARTNERSHIPS

- Pharmacy Australia Centre of Excellence (PACE)
- Herston Imaging Research Facility (HIRF)
- UQ Oral Health Centre (OHC)
- Translational Research Institute (TRI)
- Brisbane Diamantina Health Partners
- Centre for Children’s Health Research
FEATURED PROGRAM: Bachelor Of Pharmacy (Honours)

UQ is the highest ranking Australian University with a Bachelor of Pharmacy (Honours) program*. Pharmacists are society’s medicines experts, actively engaged in patient care. At UQ, you will enjoy a unique educational experience at Australia’s first Pharmacy-dedicated education and world-class research precinct, the Pharmacy Australia Centre of Excellence (PACE).

Study streams include quality use of medicines (including the therapeutic use of drugs), dosage form design, social and professional aspects of pharmacy, drug discovery and biological fate of drugs. Pharmacy-specific courses start in year 1.

You will have access to over 500 global placements and an award-winning program to help you master cross-cultural communication with patients and health professionals.

Major – Clinical and Experimental Therapeutics

We offer a major in Clinical and Experimental Therapeutics within the Bachelor of Pharmacy (Honours), which allows students to complete a research project while graduating with honours at the end of the 4-year degree.

The Clinical and Experimental Therapeutics major caters for graduates who wish to pursue a research-focused career in their future practice in hospital pharmacy, in the pharmaceutical industry, research institutes or in academia. The major allows students to undertake a research project under the guidance of an experienced researcher. Projects may be in any area of research that is currently being conducted within the School of Pharmacy.

Students conduct a review of the literature, learn how to design their experiments, conduct their research, and write up their results in the form of a research paper. Students also present their research findings to academics in the School of Pharmacy.

Please check the following list for basic information about UQ’s health undergraduate programs, including academic and English language entry requirements, indicative annual program fees, program duration, start semesters and majors. To access more detailed information, visit www.health.uq.edu.au or www.science.uq.edu.au (for Biomedical Science only).
**Bachelor of Biomedical Science (Honours)**

Biomedical scientists study how the body works and what goes wrong in disease, and use this knowledge to develop new treatments. This research-oriented program includes a foundation in chemistry, biology, physics and statistics, after which you choose courses in your areas of personal interest, pursue a research project, and study abroad if you wish. Specialisations include developmental biology, human genetics, immunology and infectious diseases, molecular and cellular biology, neuroscience, pharmacology and toxicology, and physiology. Practical and laboratory work throughout the program enhance the skills you need for a research career. Eligible students will have the option to undertake additional research in the final year.

**Admission requirements**

Queensland Year 12 (or equivalent), including Year 12 English, Mathematics B, and one of Chemistry or Physics (or acceptable alternative)

**Further study options**

MPhil, PhD

**Closing Date**

31 October 2015

Special note: Honours year commences three weeks before the start of Semester 1 in the standard academic calendar (i.e. early February). In Semester 2, Honours year commences two weeks prior to the start of the standard academic calendar (i.e. mid July).

Placements: 34 weeks (two semesters) of external clinical experience in Year 5. Provide first aid (including CPR) certificate and blue card required.

---

**Bachelor of Dental Science (Honours)**

Focusing on the application of scientific principles to the prevention, diagnosis and treatment of oral diseases and abnormalities, the program will equip you with the knowledge and clinical skills required to become a competent dental practitioner. You will take courses in oral biosciences and biomedical foundations in oral health. The remaining four years of the program involve three years of applied dental science and one year of external clinical practice. Clinical work commences in second year and is broadened in the third and fourth years of study. Each student is assigned patients and is then responsible for the dental care of these patients. Clinical work in areas such as general practice dentistry, orthodontics, paediatric dentistry, periodontics and prosthodontics is undertaken at the Dental School. You will gain entry to the areas of oral medicine and oral and maxillofacial surgery in Brisbane teaching hospitals. The final year of study provides external clinical experience.

**Admission requirements**

Queensland Year 12 (or equivalent), including Year 12 Chemistry and English (or acceptable alternative); Year 12 Biology recommended. You must also sit the International Student Admissions Test (ISAT) (see isat.acer.edu.au), and provide serological evidence that you do not carry blood-borne transmissible viruses (Hepatitis B, Hepatitis C, HIV) or Tuberculosis (TB) and that you comply with School immunisation guidelines**.

**Further study options**

Doctor of Clinical Dentistry

**Closing Date**

31 October 2015

Placements: 34 weeks (two semesters) of external clinical experience in Year 5. Provide first aid (including CPR) certificate and blue card required.

---

**Bachelor of Exercise and Nutrition Sciences**

The program focuses on developing a broad understanding of exercise and nutrition sciences, and will be particularly suited to you if you intend to enrol in a postgraduate professional degree (e.g. dietetics, physiotherapy, clinical exercise physiology, or sports coaching) leading to a wide range of clinical and non-clinical careers. You will examine how exercise and nutrition play a role in community health and the prevention and treatment of illnesses and diseases, and will take courses in human movement sciences (e.g. exercise physiology, biomechanics, motor control), nutrition sciences (e.g. metabolism, food science), preventative health (e.g. community and public health nutrition, physical activity and health) and applied sciences (e.g. biophysics, chemistry, anatomy).

**Admission requirements**

Queensland Year 12 (or equivalent), including Year 12 English and one of Biology, Chemistry or Physics (or acceptable alternative)

**Pathway programs**

Master of Dietetics Studies

**Further study options**

Bachelor of Exercise and Nutrition Sciences (Honours); Master of Dietetics Studies, Master of Clinical Exercise Physiology, Master of Sports Coaching, and other postgraduate professional degrees (such as physiotherapy and medicine)

**Closing Date**

See page 29

Placements: 340 hours (Exercise and Sports Science); 500 hours (Clinical Exercise Physiology), major practicum in Year 4: Provide first aid (including CPR), blue card and proof of immunisation** may be required.

---

**Bachelor of Exercise and Sport Sciences (Honours)**

The program explores the complex nature of human movement including how the human body reacts to fitness and exercise regimens, performs at all levels of sport participation, engages in recreational activities, as well as other acute and chronic physical activity pursuits. You will study a diverse range of courses including anatomy, biomechanics, motor control, exercise physiology, exercise and sport psychology, physical activity and health, sports medicine and exercise prescription. After completing Year 1 you may be eligible to enter the Clinical Exercise Physiology major.

**Admission requirements**

Queensland Year 12 (or equivalent) and one of Year 12 Biology, Chemistry or Physics

**Further study options**

Master of Clinical Exercise Physiology, Master of Sports Coaching

**Closing Date**

See page 29

Placements: 400 hours (Exercise and Sports Science); 500 hours (Clinical Exercise Physiology), major practicum in Year 4: Provide first aid (including CPR), blue card and proof of immunisation** may be required.

---

Contact details: International Student Advisor 1800 671 980 (free call within Australia) or +61 3 8676 7004  www.uq.edu.au/international/enquiry
Bachelor of Health Sciences

This program will provide you with a broad understanding of health care and human biomedical sciences, and is particularly suitable if you intend to enrol in a postgraduate professional degree (e.g., medicine, dietetics) or wish to enter the non-clinical health workforce (e.g. health promotion, public health) to plan and deliver efficient, quality health care. You will take courses in anatomy, physiology, public health, health promotion, health systems, health ethics, and Aboriginal and Torres Strait Islander health. In the final year, you will undertake work experience through an industry placement.

Admission requirements
- Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative), one of Year 12 Chemistry, Physics, Biology or Multistrand Science (or acceptable alternatives) highly recommended

Further study options
- Bachelor of Health Sciences (Honours); Master of Dietetics Studies and other clinical medicine, physiotherapy, occupational therapy and non-clinical postgraduate degrees (public health)

Closing Date: See page 29

Placement: HLTH3001 Practicum in Health Sciences in Year 3: blue card and proof of immunisation** are required

Bachelor of Health, Sport and Physical Education (Honours)

This program prepares you for a career in health and physical education as well as sport education and related areas. You will engage in problem-based learning in “real-life” situations throughout your degree and will learn about teaching health, sport and physical activity, in both school and community environments. Practical experience complements in-depth learning of the complex and diverse nature of human movement from physiological, biomechanical, socio-cultural, psychological, teaching (pedagogical), and health perspectives.

Bachelor of Speech Pathology (Honours)

The program will equip you with the knowledge and clinical skills required to effectively assess and treat disorders of communication in areas such as speech, voice, language and fluency. In the first two years you will take foundational courses in anatomy, linguistics, physiology, psychology, medical specialties and statistics. In first year, an emphasis on normal communication forms the reference point for second-year studies in the description and analysis of communication disorders. You will explore the areas of voice, fluency, hearing, speech, language and oral functioning. Third and fourth years are case/problem-based and integrate understanding of communication disorders with the assessment and management of clients.

Placements: 618 hours supervised clinical placement through program, including six-week clinical practice blocks conducted in Years 3 and 4. Provide first aid (including CPR), blue card and proof of immunisation** required.

Doctor of Medicine

The postgraduate entry MD program produces highly skilled doctors capable of meeting future challenges in a wide variety of careers. Years 1 and 2 constitute Phase 1 of the program, designed to provide you with a strong foundation of knowledge and skills in preparation for clinical practice. Years 3 and 4 make up Phase 2 of the program – the clinical practice phase, consisting of 10 core clinical rotations. The curriculum emphasises case-based learning and group work. You will work cooperatively on a carefully planned series of patient-centred problems, each designed to highlight principles and issues in health and disease. The program’s key features include the simultaneous learning of basic, clinical, biological and social sciences; the improved teaching of communication skills; the use of learning approaches that encourage lifelong learning skills; the incorporation of ethics and professional development as an integral part of the program; and the incorporation of information technology and computing skills to ensure that you can use technological advances to improve your learning skills and knowledge acquisition.

Admission requirements
Provisional Entry for School Leavers: Year 12 (or equivalent) in the year of application, including Year 12 English and acceptable alternatives, OP 1 (or equivalent); and have taken either the Undergraduate Medicine and Health Sciences Admissions Test (UMAT) or the International Student Admissions Test (ISAT) in the year of application, achieving a minimum score of 50 in each section of the UMAT or 60 in each section of the ISAT. An offer is conditional on gaining admission to a bachelor degree program (first degree) at UQ in the year following completion of Year 12 and completing the first degree in the minimum time permitted with a grade point average of 5 on a 7-point scale. International applicants completing Year 12 in Australia may apply for provisional entry through QTAC.

Further study options
PhD

Closing Date
Applications to UQ International open from April each year and are waitlisted once full: see www.uq.edu.au/international.

Placements: Compulsory elective placement in Year 1. Clinical rotations in Years 3 and 4. Provide first aid (including CPR), blue card and proof of immunisation** required.

Special note: All students attend the St Lucia campus in Years 1 and 2 of the MD program, and clinical schools in Years 3 and 4.

Graduates of this level 9 Masters (Extended) degree may use the title “Doctor of Medicine”.

^ Indicative full-time fee

The indicative annual fee is calculated based on a standard full-time study load in 2016 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1 or Trimester 1, should be pro-rated.

UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 29 for more details.

* Placements
You will be expected to fund travel and living expenses associated with placements, some of which may be outside the Brisbane metropolitan area. Every effort is made to place students within a reasonable distance of the UQ campus but you can be expected to travel up to 60 minutes away. Students are generally placed at Ipswich, Brisbane and the south-east corner of Queensland, although some regional placements may be required (Queensland Health accommodation may be available). You are required to have a current blue card (working with children check) before starting your practice.

Blue card
Working with children check; see glossary in the International UQ Guide 2016. Schools within the faculty can help you obtain one.

** Immunisation
You must provide proof of immunisation against certain diseases, including Hepatitis B. See health.uq.edu.au/post-admission-requirements for further details.
HUMANITIES, EDUCATION, PSYCHOLOGY AND MUSIC

Humanities and Social Sciences offers you diverse programs that allow you to explore your ideas and passions, looking at past and present game-changers to shape the future you want for yourself and your world.

ACCREDITATIONS

- Queensland College of Teachers
- National Accreditation Authority for Translators and Interpreters (NAATI)
- Australian Psychological Society Ltd

“Of the reasons I chose to pursue my study at UQ is because it was listed as a good university to study International Relations.

My interest in studying world politics and the economy motivated me to apply for this program.

During tutorials, we had a lot of fruitful discussions about debatable topics and global issues. This has really helped me to understand different perspectives from other people across cultures.”

EZA SALWA ROHANI, MALAYSIA
Bachelor of Arts
FEATURED PROGRAM:
Bachelor of Arts

With more than 40 majors to choose from, a UQ Arts degree is the perfect choice if you have broad interests in the humanities, creative arts, social science, music or languages.

While other degree programs are structured to train you for one job, an Arts degree will give you the necessary flexibility to adapt your knowledge and keep ahead of changes both in the workplace and across industries. It also gives you skills for life – critical analysis, research, and written and oral communication – so that as an employee, you can help shape change, think laterally, and present new perspectives and solutions.

Admission requirements

You must have completed three years of the Bachelor of Education (Primary) and meet the entry requirements.

Further study options

Graduate Certificate in / Graduate Diploma in / Master of Educational Studies

Closing Date

See page 29

Bachelor of Education (Secondary)

This pre-service teacher education program is available only as a dual degree and offers school-based learning, drawing on the latest research into effective teaching. Teaching areas include Accounting, Asian languages (Chinese, Japanese, Indonesian), Biology, Business organisation and management, Chemistry, Computers and information processing, Drama, Economics, English, English as a second language, European languages (French, German, Italian, Spanish), Geography, History, Mathematics, Media studies, Science, Music, Physics, Special needs, Studies in Religion, and Study of Society. The non-education degree you undertake provides the content knowledge for two teaching areas, while the education degree provides the skills and knowledge for teaching the content.

Placements: 90 days supervised practicum and 10 days school experience: blue card required (apply three months before first placement – see www.uq.edu.au/education)

Admission requirements

This program is only offered as a dual degree (see page 25) and you will have to meet the entry requirements for the non-education degree.

Dual degree programs

Arts, Business Management, Music, Music (Honours), Science

Further study options

Bachelor of Arts (Honours), Bachelor of Education (Secondary) (Honours); Graduate Certificate in / Graduate Diploma in / Master of Educational Studies

Closing Date

See page 29

Special note: You can get a Bachelor of Education (Secondary) Prerequisite Guide at www.uq.edu.au/student/dualdegrees/BA-BED(deg).doc which explains the teaching areas available and what subjects you need to have studied in high school to be eligible. You can also download a dual degree planner at www.uq.edu.au/myadvisor

Bachelor of Human Services

This program gives you the necessary skills and knowledge to help everyday people in need, and make a difference. You will learn about social issues and problems and how they occur, as well as the theory, professional ethics and value base that is the foundation of human service practice. The program focuses on how best to help people deal with real life difficulties and is the first step towards a professional career that is exciting and always changing.

Placements: 400 hours work placements in two different community-based human services agencies in Years 2 and 3: blue card required (apply three months before first placement – see www.uq.edu.au/education)

### Bachelor of Journalism

Journalism has never been so exciting or challenging. New frontiers in information gathering and dissemination are opening up, providing previously unforeseen opportunities for journalists. Journalists of the future need to be multi-skilled, adaptable, resourceful and creative, and so UQ has developed its journalism program with the future needs of journalism and journalists in mind. The curriculum develops critical understandings of the role of journalism in society as well as high-order and relevant practical production skills. You will benefit from working with industry consultants with expertise in television, print, online and radio journalism, as well as producers, film-makers, media managers and public relations specialists. You will gain sought after skills in field recording and camerawork; editing of sound, vision and pictures; digital and paper publishing; and multi-platform distribution. You will also gain valuable insights into current production values and practices through the on-site media and production support team.

### Bachelor of Music

This program is intended for those wishing to pursue a professional career in music, and integrates the development of practical skills with theoretical and historical musical knowledge. All first-year students take practical study and may continue to do so into second year depending upon results (alternatively you may take small group tuition in second year). In the first two years you also take courses in music history, techniques and aural training, plus electives from popular music or non-music courses. For your final two years, you will choose one of four majors, with the choice of major subject to meeting prerequisite requirements.

### Bachelor of Psychological Science

This program prepares you for a career in psychology and for postgraduate professional or research training. You will gain an integrated and comprehensive education in the main discipline areas, including developmental, social, cognitive, biological, physiological and abnormal psychology. The program also develops research methods and psychological assessment and survey skills. You can pursue individual interests by choosing electives from a range of specialist areas, including family processes; development disorders; psychopathology; counselling psychology; health psychology; group processes and inter-group relations; attitudes; social cognition; and industrial and organisational psychology.

- Master of Clinical Psychology
- Master of Organisational Psychology
- Doctor of Psychology, PhD

### Bachelor of Social Science

The program will teach you how to develop strategies to address major social challenges facing society at the local, national and international level. A unique and innovative program, you will gain expertise in social science research design and implementation, as well as detailed knowledge of a specialised field of practice. The program comprises a research core, a major area of study, and elective courses that can be tailored to suit through a range of study plans. Courses provide you with knowledge and skills related to social issues, how to identify and analyse social concerns and problems, develop positions on social issues, and propose possible interventions.

**Majors**

- Criminal justice
- Development
- Health and society
- Social and public policy
- Social cognition
- Social policy
- Survey research
- Social issues

**Dual degree programs**

- Arts

**Further study options**

- Bachelor of Social Science (Honours)
- Graduate Certificate in Social Work
- Graduate Diploma in Social Work
- Master of Social Work

### Special note:

To become a registered psychologist in Queensland, you must complete a four-year psychology program, as well as a professional masters, doctorate or PhD program in psychology, or two years supervised experience as a psychologist. Psychology can also be studied through the Bachelor of Arts or the Bachelor of Science. With an additional Honours year, both these programs meet the undergraduate requirements for professional registration when combined with two years supervised experience as a psychologist.
**Bachelor of Social Work**

Social work is a career for those who have an interest in working with individuals, families and communities, and in addressing social issues and problems through interpersonal, community and policy practice. Studies in social work consist of studies on human behaviour, the structure of society, social welfare problems, policies and provision, the theory and practice of social work, and practical experience in social welfare and community settings. You will have the opportunity to specialise in industry priority areas of social work practice enabling you to graduate with a minor in Health and Ageing; Child, Youth and Family; or Mental Health. In both third and fourth years, you will spend several months working in an agency setting under professional supervision. You will develop specialised knowledge of organisations and skills in social work practice, and begin to articulate your own framework for professional practice.

**Admission requirements**

Queensland Year 12 (or equivalent), including Year 12 English (or acceptable alternative)

**Further study options**

Graduate Certificate in / Graduate Diploma in / Master of Development Practice, Master of Counselling

**Closing Date**

See page 29

**Placements**

1000 hours supervised placements in Years 3 and 4: blue card required* (apply three months before first placement)

---

** Bachelor of Social Work (Honours)**

**Further study options**

Graduate Certificate in / Graduate Diploma in / Master of Development Practice, Master of Counselling, MPhil, PhD

**Closing Date**

See page 29

**Placements**

1000 hours supervised placements in Years 3 and 4: blue card required* (apply three months before first placement)

---

**Concurrent Diplomas**

At UQ, you can undertake an undergraduate diploma concurrently with your Bachelor degree. These include:

- Diploma in Global Issues [uq.edu.au/study/program.html?acad_prog=1600#international]
- Diploma in Languages [uq.edu.au/study/program.html?acad_prog=1602#international]
- Diploma in Music Performance [uq.edu.au/study/program.html?acad_prog=1605#international]

---

* Placements

Every effort is made to place students within a reasonable distance of the UQ campus but you can be expected to travel up to 60 minutes away. Students are generally placed at Ipswich, Brisbane and the south-east corner of Queensland. You are required to have a current blue card (Working with Children Check) before starting your practice. There will be no extra costs to you in addition to course fees except for incidentals such as travel and daily expenses.

The School of Psychology has a Clinical Program Practicum Handbook that provides additional information about its practicum and school experience requirements and is available from [www.psy.uq.edu.au/](http://www.psy.uq.edu.au/)

**Blue card**

Working with children check: see glossary in the International UQ Guide 2016. Schools within the Faculty can help you obtain one upon arrival.

**Indicative full-time fee**

The indicative annual fee is calculated based on a standard full-time study load in 2016 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1 or Trimester 1, should be pro-rated.

UQ also charges a capped annual Student Services and Amenities Fee (SSAF) – see page 29 for more details.

(EM)

These majors provide you with the option of studying 24 units in one field, gaining deeper knowledge in that discipline. Some fields require extended majors for progression to Honours.

**Minor**

You can study an approved combination of eight units within a field as part of your degree.

Closing dates

Visa application processing time varies according to whether your program is eligible for Streamlined Visa Processing: see www.uq.edu.au/international-students/svp. You should submit your application no later than the recommended dates in the table to ensure that you have enough time to apply for a student visa.

Some UQ programs have specific early deadline dates: see details on pages 2–28, or check www.uq.edu.au/study.

Department of Immigration and Border Protection (DIBP) www.immi.gov.au

ADMISSION REQUIREMENTS

ACADEMIC ENTRY REQUIREMENTS

To meet UQ’s academic entry requirements for undergraduate programs, you must have:

1. completed recognised upper secondary or studies comparable to Australian Year 12 to the required standard (see the Minimum Australian Year 12 equivalent studies table on page 31), and
2. satisfied individual program requirements, i.e. specific prerequisites (see the Admission prerequisites and Minimum entry scores tables on pages 31–32 of this booklet, and program outlines in this booklet).

Applicants are assessed on a case-by-case basis. Depending on the program, meeting minimum entry requirements does not guarantee acceptance. Applicants who do not meet academic entry requirements may wish to consider taking the Certificate IV in University Preparation offered by International Education Services (IES) (see page 30).

For dual programs

You must satisfy prerequisites and entry requirements for both programs, and apply via the normal application procedure (see the International UQ Guide 2016). Check the appropriate program code for the degree combination in the tuition fees table (see page 36).

Undergraduate diplomas

If you would like to enrol in the Diploma in Music Performance or the Diploma in Languages, you can apply directly to UQ once you have received your offer of a place in a bachelor degree at UQ.

If you are interested in the Diploma in Global Issues, you will need to complete one year (16 units) of undergraduate studies at UQ before you can apply (a minimum grade point average applies). Applications for these undergraduate diplomas should be made through the relevant faculties.

Student Services and Amenities Fee (SSAF)

In 2011 the Australian Parliament passed legislation allowing universities and other higher education providers to charge a fee for non-academic services such as sporting and recreation activities, employment and career advice, child care, financial advice, and food services. UQ levies the SSAF – which is capped at a maximum of $286 for 2015 – according to whether you are an internal or external student, or enrolled full-time or part-time. The fee is indexed annually. Information about the SSAF for 2015 is available online.

UNDERGRADUATE PATHWAY PROGRAMS

If you don’t yet meet the entry requirements for an undergraduate program you can upgrade your academic qualifications with one of the following pathway programs.

The Foundation Year
The University of Queensland recognises the 30954QLD Certificate IV in University Preparation (CRICOS Course Code 075730A) offered by International Education Services (IES) as the exclusive Foundation Year for international students for entry into the first year of all undergraduate programs.

The Foundation Year provides a bridge between your secondary (high school) studies and undergraduate study at The University of Queensland. If you achieve specified standards you will receive a 30954QLD Certificate IV in University Preparation and are guaranteed an offer into UQ’s corresponding undergraduate programs*.

*Quotas apply in several programs.

UQ College: Your pathway to success
UQ College offers an alternative entry for international students wishing to study business at the St Lucia campus.

Associate Degree in Business
By choosing to study this 16-month (four trimesters) UQ-accredited Associate Degree in Business (AssocDBus), you will gain a strong stand-alone qualification.

If you complete the AssocDBus with a cumulative grade point average of 4 (on a 7-point scale), you may also be eligible to apply for UQ’s Bachelor of Business Management (BBusMan) and receive 24 units of credit (three semesters full-time) towards the BBusMan.

English language pathways to UQ
If you meet all the academic entry requirements for your UQ program, but need further English language training, then you are eligible to undertake an English language pathway at UQ’s Institute of Continuing and TESOL Education (ICTE-UQ).

English language pathway students receive a Package Offer to UQ which includes an offer for a place in an ICTE-UQ English course plus an offer for a place in a UQ program (conditional on meeting the English language proficiency requirements for entry).

Phone +61 7 3346 6770
ICTE-UQ CRICOS Provider No 00091C

TUITION FEES

Coursework award tuition fee
The University of Queensland has program-based fees for coursework award programs.

Program fees mean that all courses within a program are charged at the same tuition fee rate per unit for a given academic year. This means you will know what your tuition charges for that year will be.

The indicative fees assume that students enrol in a full-time study load (usually eight units per semester). For students who are not enrolled in a standard full-time study load, the fee is pro-rated. 2016 indicative annual/semester fees for programs, based on a standard full-time study load, are included in the 2016 Undergraduate and Postgraduate Program Supplements.

Each program’s fees are indexed annually. The indexation rate is fixed approximately 18 months in advance of a particular academic year, thereby allowing you to plan your finances ahead of time. The University’s intent is that fee rate increases will be kept to a minimum and that indexation rates will remain stable wherever possible. Since 2007 the average indexation rate has been four per cent.

To estimate the total cost of a program, multiply the semester or annual fee by the number of semesters or years. As a guide, you can add on the historical average indexation rate of four per cent per year (please note: this rate is subject to change).

Fee refund information
For information about UQ’s refund policy, please visit the website.

Fee Refund Information
http://ppl.app.uq.edu.au/content/3.40.03-international-student-refunds

Tuition fees received before program begins
Payment of tuition fee amounts greater than 50 per cent of the total indicative tuition fees for a student’s program (or greater than 100 per cent for programs of less than 24 weeks duration) before the agreed starting day of the first study period of enrolment at UQ cannot be accepted and will be returned to the payer (see Application for and payment of refunds).

Application for and payment of refunds
Under US Federal William D Ford Direct Loan Program guidelines, the University is required to return the unearned portion of funds provided for study purposes to the US Government if the student granted the loan withdraws prior to completing 60 per cent of a study period (the US Financial Aid census date). No tuition fees are refunded to the US Government if the student withdrawing has completed more than 60 per cent of the study period.

Student rights
Any agreement and the availability of complaints and appeals processes does not remove a student’s right to take further action under Australia’s consumer protection laws or prohibit the student’s right to pursue other legal remedies.

Australian Competition and Consumer Commission (ACCC)
www.accc.gov.au
Fee Refund Enquiries
www.uq.edu.au/qsanswers

Note: Refunds are made to international students in accordance with the provisions of the ESOS Act, National Code, University Fee Rules and Financial Management Practices (PPL 9.35.01).

## Other Australian Year 12 Subject Equivalents

*Combined Science can only be used for Chemistry and Physics.

**NOTE:** Minimum grades are sometimes required to meet entry requirements.
The University reviews entry requirements annually. The scores listed above are correct at time of printing but are subject to variation; these scores generally apply to applicants who are offshore with qualifications considered to be the equivalent of Queensland Year 12. For more information see www.uq.edu.au/international-students/min-entry-table.

1 UK GCE "A" Levels for countries including: Bahamas, Bangladesh, Brunei, Cameroon, Falkland Island, Gambia, Ghana, Gibraltar, Hong Kong, Ireland, Kenya, Liberia, Macau, Malawi, Malta, Mauritius, Namibia, Nigeria, Seychelles, Sierra Leone, Tanzania, Uganda, United Kingdom, Ireland, Zambia and Zimbabwe. Aggregate of best 3 (or 2) A Level subjects or a combination of A and AS Level subjects equivalent to 3 (or 2) A Level subjects. A*=5, A=4, B=3, C=2, D=1 and AS Levels count for half of these scores.

2 Singapore A Levels – aggregate of best three H2 subjects and best one H1 subject; for H2 subjects, A=5, B=4, C=3, D=2, E=1; for H1 subjects, the notional value is half of that assigned to H2 subjects

3 Malaysian STPM – aggregate of best three subjects, where $A=4.00, A+=3.67, B=3.33, B+=3.00, B=2.67, B-=2.33, C+=2.00$

4 IB – International Baccalaureate Diploma.

5 French Baccalaureat – average, with 10 as the pass mark

6 HKDSE – combined total of the best five subjects

7 Chinese Gakkou (35% PASS)

8 ALL INDIA SC (35% PASS)

9 Medicine – Students must have taken either the Undergraduate Medicine and Health Sciences Admissions Test (UMAT) or the International Student Admissions Test (ISAT) in the year of application, achieving a minimum score of 50 in each section of the UMAT or a minimum score of 60 in each section of the ISAT.

10 Music – Entry on the basis of specified requirements, audition, interview and musicianship test

These programs have quota restrictions and entry is very competitive; the figures quoted are a guide only and applications will be assessed on a case-by-case basis.

Meet the entry requirements does not guarantee meeting in 2017 will be available in July 2016. 8 India - grade average in best four subjects, converted to a percentage where 35% equals a pass

The University reserves entry requirements annually. The scores listed above are correct at time of printing but are subject to variation; these scores generally apply to applicants who are offshore with qualifications considered to be the equivalent of Queensland Year 12. For more information see www.uq.edu.au/international-students/min-entry-table.

1 UK GCE "A" Levels for countries including: Bahamas, Bangladesh, Brunei, Cameroon, Falkland Island, Gambia, Ghana, Gibraltar, Hong Kong, Ireland, Kenya, Liberia, Macau, Malawi, Malta, Mauritius, Namibia, Nigeria, Seychelles, Sierra Leone, Tanzania, Uganda, United Kingdom, Ireland, Zambia and Zimbabwe. Aggregate of best 3 (or 2) A Level subjects or a combination of A and AS Level subjects equivalent to 3 (or 2) A Level subjects. A*=5, A=4, B=3, C=2, D=1 and AS Levels count for half of these scores.

2 Singapore A Levels – aggregate of best three H2 subjects and best one H1 subject; for H2 subjects, A=5, B=4, C=3, D=2, E=1; for H1 subjects, the notional value is half of that assigned to H2 subjects

3 Malaysian STPM – aggregate of best three subjects, where $A=4.00, A+=3.67, B=3.33, B+=3.00, B=2.67, B-=2.33, C+=2.00$

4 IB – International Baccalaureate Diploma.

5 French Baccalaureat – average, with 10 as the pass mark

6 HKDSE – combined total of the best five subjects

7 Chinese Gakkou (35% PASS)

8 ALL INDIA SC (35% PASS)
ENGLISH LANGUAGE REQUIREMENTS

DEMONSTRATING ENGLISH LANGUAGE PROFICIENCY
To meet UQ’s English language proficiency requirements and gain entry to most undergraduate programs, you must demonstrate one of the following:

- a score equivalent to four semesters with a minimum grade of Sound Achievement in Queensland Authority English or English for ESL Learners (see the English language proficiency – Queensland Year 12 equivalents table overleaf); less than four semesters may be considered for some programs

or

- at least 6.5 overall and 6.0 in each sub-band of IELTS (or equivalent test) (see the English language proficiency – alternative tests and scores table overleaf). (Please note: some programs may require a higher IELTS score; see individual program requirements).

Other equivalent tests such as TOEFL and Pearson Test of English (PTE) Academic are also accepted (see the English language proficiency – alternative tests and scores table overleaf), and other qualifications and experience may also be considered. For details, go to ppl.app.uq.edu.au/content/3.40.14-english-language-proficiency-admission-and-concurrent-support#Procedures.

Documentation required
To demonstrate your English language proficiency, you must attach certified copies of all relevant academic transcripts and award certificates to your application. Specific arrangements apply to IELTS, TOEFL and Pearson Test of English (PTE) Academic (see following).

International English Language Testing System (IELTS) test
If you are demonstrating your English proficiency with an IELTS test score, you must attach a copy of the IELTS test result to your application. You can find more information about the IELTS test from IDP Education Australia offices, Australian Diplomatic Missions, and the University’s official representatives at www.uq.edu.au/international/eduereps.

Test of English as a Foreign Language (TOEFL)
If you are demonstrating your English proficiency with a TOEFL test score, you must arrange for UQ to receive an original copy of an official TOEFL score report for tests other than Internet-based. For Internet-based TOEFL tests, please provide a copy of the TOEFL results for verification purposes. Please ask the Educational Testing Service to send the Official Score Report directly to The University of Queensland, Institution Code 0987. Please note that The University of Queensland does not generally accept TOEFL results for quota-based programs, nor does it accept institutional TOEFL tests.

TOEFL
www.toefl.org

Pearson Test of English (PTE) Academic
If you wish to satisfy the English language proficiency requirement with your PTE result, you will need to send a copy of your results through your online PTE Academic account so they can be verified.

To send your results, access your account at www.vue.com/pte. Click “Send Scores” and enter “UQ”, then click “Send”. Your scores will then be available for verification.

Pearson Test of English (PTE)
www.vue.com/pte

English language studies and IELTS at UQ
If you wish to improve your English language proficiency, you can undertake intensive English language studies at UQ’s Institute of Continuing & TESOL Education (ICTE-UQ). English language training courses offered by ICTE-UQ are outlined in the International UQ Guide 2016.

If you wish to receive a package offer of English language studies at ICTE-UQ and a conditional offer of admission to a UQ academic program, you must first meet all other program entry requirements and provide UQ with evidence of your current level of English language proficiency.

ICTE-UQ has been an IELTS test administration centre since 1989. Institute of Continuing & TESOL Education (ICTE-UQ)
www.ictc.uq.edu.au
Email tesol.enrol@ictc.uq.edu.au
Phone +61 7 3346 6770
ICTE-UQ CRICOS Provider Number 00091C

English language proficiency for visa purposes
If you satisfy the University’s English language proficiency requirements, you may still need to meet additional student visa requirements for English proficiency as required by the Department of Immigration and Border Protection (DIBP).

DIBP only accepts certain English tests for visa purposes where evidence of English language proficiency is required: please visit the website for details.

</table>

¹ The indicative annual fee is calculated on a standard full-time study load in 2016 (usually this is 16 units but this may vary). Fees for less than a standard full-time study load in the year or for programs which do not commence in Semester 1 or Trimester 1, should be pro-rated. Tuition fees are indexed each year. The indexation rate is fixed 18 months in advance of a particular academic year thereby allowing you to plan your finances ahead of time. The University’s intent is that fee rate increases will be kept to a minimum and that indexation rates will remain stable wherever possible. Since 2007 the indexation rate has remained at or less than 4 per cent.

² Indicative fees are calculated on the basis of full-time fees per semester or trimester only and may vary according to whether full-time or part-time. The University sets an indicative annual fee for each program; this is divided by the standard full-time study load for the program to work out a tuition fee rate per unit, which is rounded to the nearest dollar. The rate per unit is used to calculate the indicative semester fee.

³ This program is only offered as a dual degree.

*A An optional honours year is available to qualified students.
**B This program is four trimesters in duration and fee quoted is per trimester.
HOW TO APPLY
for undergraduate and postgraduate coursework programs

1 SELECT THE PROGRAM YOU WANT TO STUDY
Search for your program in the Undergraduate or Postgraduate program supplement for international students or on UQ’s Courses and Programs website at www.uq.edu.au/study (you can also select a second preference which we may consider if you are not accepted for your first choice); and if your program has plans (fields of study) or majors, please choose one

2 CHECK THE ENTRY REQUIREMENTS AND APPLICATION DATES
All programs have specific academic and English language requirements and some programs have additional requirements; please check that you satisfy them all; also please check the application dates and whether you will need to meet any early deadlines

3 APPLY
EITHER apply directly to UQ at www.uq.edu.au/international-students/how-to-apply and follow the instructions OR apply through one of UQ’s official international representatives (check www.uq.edu.au/international/edureps to find your local education representative). If you do not have internet access, please contact UQ International Admissions for an application form (phone: +61 7 3365 7941, fax: +61 3365 1794, address: International Admissions, Level 2, JD Story Building, The University of Queensland, St Lucia, Queensland 4072, Australia). You must pay a non-refundable application fee of $100 by credit card or bank transfer (see website for details) and provide certain documentary evidence to support your application (see page 29 of the International UQ Guide 2016);

4 YOUR APPLICATION WILL BE ASSESSED
We will assess your application and, if eligible, will send you an Offer Letter by email, as well as a Streamlined Visa Processing (SVP) declaration (if you have applied for a standalone or package offer for a Bachelor or Masters degree by coursework) and information about what to do next (such as finding accommodation online, commencing your studies at UQ, and living in Brisbane)

5 ACCEPT OFFER
Return the completed Acceptance form, payment and signed SVP declaration (if applicable) – along with any documents that we have requested to satisfy conditions – to the International Admissions office or one of the University’s local representatives

6 CONFIRM ENROLMENT
Once we receive your Acceptance and payment (and SVP declaration if applicable), and provided you have met any conditions required, we will issue you with a Confirmation of Enrolment (CoE) via email, as well as information on what you need to do next (including how to organise airport reception and temporary accommodation) and a list of important dates

7 GET AN INTERNATIONAL STUDENT VISAA
Use your CoE to apply for a student visa via an Embassy, High Commission or the Department of Immigration and Border Protection, and make travel arrangements

8 PREPARE FOR DEPARTURE
Book airport reception and accommodation at www.uq.edu.au/student-services/accommodation and attend a Pre-Departure Seminar (online at www.uq.edu.au/international-students/pre-departure-webinar, or locally if one is offered)

9 ARRIVE AT UQ

10 ATTEND ORIENTATION AND ENROL
Attend Getting Started and Welcome sessions, and enrol online

11 COMMENCE STUDY
