Product Recall Electrical Portable Outlet Device

All Workplace Health and Safety Officers and electrical workers please be aware of the following information provided by ACCC recalls.

Electrical Portable Outlet Device

Date: 28/06/2005

Supplier Name: Mirabella

Recall Coverage: Australia wide

Product Info: Mirabella 6-way outlet boxes. Model No. FS06B; and Model No. FS06C.

Defect Details: Model FS06B: In addition to the 6 socket outlets, this product has two telephone connector sockets, which are intended to provide surge suppression to the telephone line. It is possible for the creepage and clearance distance between L.V. and components in the phone filter circuit to be less than the 8mm specified in AS/NZS3100 Table 4.1. Model FS06C: This product is silver in colour, and three of the six socket outlets are wider spaced to facilitate transformers with integral pins being plugged into those socket outlets. This product is fitted with a 3m long flexible supply cord. The product is not fitted with a switch at a maximum of 1.8m from the device as required by Clause 4.5.4(A) of AS/NZS3105.

Market Coverage: Australia wide

Recall Coverage: Australia wide

The Product Safety Section of the ACCC has overall policy responsibility for monitoring the conduct and outcomes of consumer goods safety recalls in Australia
