Bachelor of Engineering/Bachelor of Information Technology

1 Definitions
In these rules –

approved combination means a combination approved by the executive dean.

BInfTech major means an approved combination of 14 units from the BInfTech list.

BInfTech extended major means an approved combination of 24 units from the BInfTech course list.

BE major means an approved combination of 50 units from the BE course list for the chosen field of study.

BE dual major or extended major means an approved combination of 60 units from the BE course list for the chosen field of study.

minor means an approved combination of 10 units from the BE course list for the chosen field of study.

permitted BE dual or extended major means an approved combination of 60 units from the BE course list in the chosen field of study which contains at least 4 units also in parts A, B or C of the BInfTech course list.

2 Field of study
(1) A student must undertake the BE part of the dual program in an approved field of study.

(2) A student may undertake the BInfTech part of the dual program in an approved field of study.

3 Program requirements
(1) To complete the program, a student must complete 88 units, comprising one of the following –

(a) (i) 56 units from the BE course list including —

(A) a BE major; and

(B) 6 units of courses from the BE course list or other courses approved by the executive dean; and

(ii) 32 units from the BInfTech course list, not including those counted in rule 3(1)(a)(i); or

(b) (i) 60 units from the BE course list comprising a permitted BE dual or extended major; and

(ii) 28 units from the BInfTech course list, not including those courses counted in rule 3(1)(b)(i); or

(c) (i) 62 units from the BE course list comprising –

(A) 2 units from part D of the BE Year 1 list; and

(B) a permitted BE dual or extended major including at least 6 units from any courses in parts A, B or C of the BInfTech course list; and
(ii) 26 units from the BInfTech course list, not including those courses counted in rule 3(1)(c)(i).

(2) Unless a different intention appears in these rules, a student must comply with the program rules for both degrees.

4. Special Rules

4.1 BE field of study

(1) A student must undertake the Bachelor of Engineering component of the dual program in a field other than software engineering or software systems and aerospace engineering.

(2) A student enrolled in the program may not undertake—

(a) a BE dual or extended major other than a permitted BE dual or extended major; or

(b) both a BE major and a minor.

4.2 BInfTech field of study

A student enrolled in the program may not undertake –

(a) a BInfTech extended major; or

(b) 2 BInfTech majors.

4.3 Courses in both course lists

(1) Where a course is listed in part A of the BE major or permitted BE dual or extended major, it must be counted towards the BE part of the dual program.

(2) Where a course is listed in part A of the BInfTech list and not listed in part A of the BE major or permitted BE dual or extended major, the course must be counted towards the BInfTech part of the dual program.
