Graduate Diploma in Epidemiology

1. **Enrolment requirements:**
   To enrol, a student must hold –
   i. a graduate certificate in epidemiology from the university; or
   ii. an approved degree.

2. **Field of study:**
   2.1 A student must undertake the program in a field of study approved by the executive dean.
   2.2 If the student does not hold an approved degree, the student must undertake the program in the field of study in which the student undertook the program for the graduate certificate.

3. **Program requirements:**
   #16 from the GDipEpi list in the relevant field.

4. **Special rules:**
   **Continuous enrolment:** Unless approved by the executive dean, a student must undertake the program without interruption.
