Master of Biostatistics

1 Definitions
In these rules –

16-unit program means the Master of Biostatistics program comprised of 16 units.

24-unit program means the Master of Biostatistics program comprised of 24 units.

MBiostatistics list means the course list for the 16-unit program and the 24-unit program.

2 Enrolment requirements
(1) To enrol in the 16-unit program, a person must hold an approved 4-year degree, or equivalent, in the field of biostatistics or a related field.

(2) To enrol in the 24-unit program, a person must –
   (a) (i) hold an approved degree; and
   (ii) have completed at least one introductory course in statistics at undergraduate level, or equivalent; or
   (b) hold a Graduate Diploma in Biostatistics from the university.

3 Program requirements
(1) To complete the 16-unit program, a student must complete 16 units from the MBiostatistics list.

(2) To complete the 24-unit program, a student must complete 24 units from the MBiostatistics list.

4 Thesis or project
(1) A student must obtain the program coordinator’s approval for the student’s thesis or project topic.

(2) The head of school must appoint at least 2 examiners to examine the student’s thesis or project.
