Master of Conservation Biology (Advanced) (MConsBiol(Adv))

1 Enrolment requirements
To enrol in the program a person must hold –
(a) a master of conservation biology from the university; or
(b) an approved degree in biology with a specialisation in ecology, evolution, zoology or botany (or equivalent) or an undergraduate degree in environmental science.

2 Program requirements
(1) To complete the program, a student must complete 32 units from the MConsBiol(Adv) course list comprising —
(a) 24 units from part A; and
(b) either –
   (i) for students enrolled in the research option – 8 units from part B; or
   (ii) for students enrolled in the coursework option – 8 units from part C.

(2) To enrol in the research option, a student must –
(a) complete 24 units from part A of the MConsBiol(Adv) course list; and
(b) gain a GPA of 5.5 from courses in part A.

3 Maximum credit for other study
The maximum credit that the associate dean (academic) may grant to a student for other study is 8 units.

Note: See GAR 1.6 of the General Award Rules.

4 Special rules
4.1 Supplementary Examinations/Assessment
In addition to GAR1A.17.3, the associate dean (academic) may award supplementary assessment to a student who gains a grade of 3 in one or more courses in the first semester of enrolment in the program.

4.2 Award of the Graduate Certificate in Conservation Biology
A student who withdraws from the program after completing 8 units may be awarded a Graduate Certificate in Conservation Biology.
