Bachelor of Engineering (Honours) / Bachelor of Biotechnology (Honours)

1 Definitions
In these rules—

**BBiotech(Hons) list** means BBiotech(Hons) course list for the bioprocess technology field;

**BE(Hons) list** means the BE(Hons) course list for the chemical engineering field of study;

**compulsory courses** means all compulsory courses required for the Bachelor of Biotechnology (Honours) in the bioprocess technology field of study;

**major** in the BE(Hons) means 52 units as set out for the chemical engineering field of study.

2 Program requirements
(1) To complete the program, a student must complete 88 units, comprising—
   (a) 52 units from the BE(Hons) list, comprising a major in chemical engineering; and
   (b) 36 units from BBiotech(Hons) list including compulsory courses.

(2) Unless a different intention appears in these rules, a student must comply with the program rules for both degrees.

3 Concurrent enrolment
A student must maintain concurrent enrolment in both constituent degree programs.

*Note* The dual degree is a single program of study leading to the simultaneous award of two degrees. A student is not permitted to graduate with one degree and continue enrolment in the program.
