

## Master of Applied Econometrics (#24)

### 1 Application

These rules apply to students who are enrolled in the Master of Applied Econometrics (24 unit) program.

*Note: a separate set of rules apply to students who are enrolled in the Master of Applied Econometrics (32 unit) program.*

### 2 Enrolment requirements

To enrol in the program, a person must hold –

- (a) an approved bachelor degree or equivalent in economics, or with a major in economics, that includes courses equivalent to introductory econometrics and intermediate microeconomics and macroeconomics, with a GPA of 5.5; or
- (b) an approved bachelor degree or equivalent in the discipline of mathematics or statistics with a GPA of 5.5 and have completed at least five years full-time (or equivalent) professional work experience in the field of economics, approved by the executive dean; or
- (c) the graduate certificate in economics from this university, with a GPA of 5.5.

### 3 Program requirements

To complete the program, a student must complete 24 units from the MAppEmet (#24) course list comprising —

- (a) 8 units from part A of the list; and
- (b) 8 units from part B of the list; and
- (c) 8 units from parts B or C.

### 4 Maximum credit for other study

The maximum credit that the associate dean (academic) may grant to a student for other study is 12 units.

*Note See [PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning](#).*

### 5 Special rules

#### 5.1 Award of the graduate certificate in econometrics

A student who withdraws from the program after completing 8 units from the MAppEmet (#24) list may be awarded a graduate certificate in econometrics.

#### 5.2 Award of the graduate diploma in econometrics

A student who withdraws from the program after completing 16 units from the MAppEmet (#24) list may be awarded a graduate diploma in econometrics.
