

## Master of Conservation Biology (MConsBiol)

### 1 Enrolment requirements

To enrol in the program a person must hold an approved degree in biology with a specialisation in ecology, evolution, zoology or botany (or equivalent) or an undergraduate degree in environmental science.

### 2 Program requirements

To complete the program, a student must complete 24 units from part A of the MConsBiol course list.

### 3 Maximum credit for other study

The maximum credit that the associate dean (academic) may grant to a student for other study is 8 units.

*Note: See [PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning](#).*

### 4 Special rules

#### 4.1 Supplementary Examinations/Assessment

In addition to [PPL 3.10.09 Supplementary Assessment](#), the associate dean (academic) may award supplementary assessment to a student who gains a grade of 3 in one or more courses in the first semester of enrolment in the program.

#### 4.2 Award of the Graduate Certificate in Conservation Biology

A student who withdraws from the program after completing 8 units may be awarded a Graduate Certificate in Conservation Biology.
