Master of Conservation Biology (MConsBiol)

1 Enrolment requirements
To enrol in the program a person must hold an approved degree in biology with a specialisation in ecology, evolution, zoology or botany (or equivalent) or an undergraduate degree in environmental science.

2 Program requirements
To complete the program, a student must complete 24 units from part A of the MConsBiol course list.

3 Maximum credit for other study
The maximum credit that the associate dean (academic) may grant to a student for other study is 8 units.

Note: See PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning.

4 Special rules
4.1 Supplementary Examinations/Assessment
In addition to PPL 3.10.09 Supplementary Assessment, the associate dean (academic) may award supplementary assessment to a student who gains a grade of 3 in one or more courses in the first semester of enrolment in the program.

4.2 Award of the Graduate Certificate in Conservation Biology
A student who withdraws from the program after completing 8 units may be awarded a Graduate Certificate in Conservation Biology.
