

Master of Conservation Science

1 Enrolment requirements

1.1 Eligibility

To be eligible to enrol in the program, a person must—

- (a) hold an approved degree in the same discipline; and
- (b) satisfy the executive dean that, based on the person's academic records and prior work experience, the person is qualified for admission.

1.2 Selection

Once eligibility is established, entry is via a competitive selection process based on GPA.

2 Program requirements

To complete the program, a student must complete 32 units from the MConsSc course list, comprising—

- (a) 24 units from part A; and
- (b) either—
 - (i) for students enrolled in the research option—8 units from part B; or
 - (ii) for students enrolled in the coursework option—8 units from part C.

3 Maximum credit for other study

The maximum credit that the associate dean (academic) may grant to a student for other study is 8 units.

Note see [PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning](#).

4 Special rules

4.1 Supplementary assessment

In addition to [PPL 3.10.09 Supplementary Assessment](#), the associate dean (academic) may grant supplementary assessment in one or more courses in which the student gains a grade of 3 and where the student—

- (a) gains that grade in the first semester following admission to postgraduate study at the university; and
- (b) makes an application for supplementary assessment within 5 days of the release of results.

4.2 Award of the Graduate Certificate in Conservation Biology

A student who withdraws from the program after completing 8 units may be awarded a Graduate Certificate in Conservation Biology.

4.3 Award of the Master of Conservation Biology

A student who withdraws from the program after completing 24 units from Part A may be awarded a Master of Conservation Biology.
