

Master of Engineering

1 Enrolment requirements

To enrol in the program, a person must—

- (a) hold an approved degree in engineering and in the relevant field of study for which they wish to enrol; and
- (b) satisfy the executive dean, that based on their academic record, they are suitably qualified for admission into this program.

2 Field of study

A student must undertake the program in an approved field of study.

3 Program requirements

A student must complete 32 units of courses in accordance with the ME course list for the enrolled field of study.

4 Maximum credit for other study

The maximum credit that the associate dean (academic) may grant to a student for previous study is 16 units.

Note see [PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning](#).

5 Special rules

5.1 Professional practice

A student must—

- (1) complete 450 hours of professional practice approved by the executive dean; and
- (2) satisfactorily complete assessment pertaining to that professional practice as determined by the executive dean.

5.2 Supplementary assessment

The associate dean (academic) may grant supplementary assessment in a single course in which the student gains a grade of 3 and where the student—

- (a) gains that grade—
 - (i) in the first semester of postgraduate study at the university; or
 - (ii) in the final semester of the program when a higher grade would complete the program requirements; and
- (b) makes an application within five (5) days of the release of results.

5.3 Award of the Graduate Certificate in Engineering

A student who withdraws from the program after completing 8 units may be awarded a Graduate Certificate in Engineering.

Note see [PPL 3.20.02b of the Policy and Procedures Library](#).

5.4 Award of the Graduate Diploma in Engineering

A student who withdraws from the program after completing 16 units may be awarded a Graduate Diploma in Engineering.

Note see [PPL 3.20.02b of the Policy and Procedures Library](#).
