Master of Data Science (32 units)

1 Enrollment requirements
To enrol in the program, a person must—
(a) hold an approved degree in a Mathematics or Statistics or Computing discipline; and
(b) satisfy the executive dean, that based on their academic record, they are suitably qualified for admission into this program.

2 Program requirements
To complete the 32-unit program, a student must complete 32 units in accordance with the MDataSc program course list.

Note a separate set of rules apply to students enrolled in the Master of Data Science (24 units) program.

3 Maximum credit for other study
The maximum credit that an associate dean (academic) may grant to a student for previous study is 8 units.

Note see PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning

4 Special rules
4.1 Supplementary assessment
The associate dean (academic) may grant supplementary assessment in a single course in which the student gains a grade of 3 and where the student—
(a) gains that grade—
   (i) in the first semester of postgraduate study at the university; or
   (ii) in the final semester of the program when a higher grade would complete the program requirements; and
(b) makes an application within 5 days of the release of results.

4.2 Award of the Graduate Certificate in Data Science
A student who withdraws from the program after completing 8 units from the combination of Part A and Part B of the MDataSc course list (with at least 4 units of DATA coded courses, including DATA7001) may be awarded a Graduate Certificate in Data Science.
