

Bachelor of Pharmacy (Honours)

1 Definitions

In these rules—

major means an approved combination of 16 units from the BPharm(Hons) course list.

2 Field of study

2.1 Approved field

A student may undertake the program in an approved field.

2.2 Clinical and experimental therapeutics

- (1) To be eligible for enrolment in the *clinical and experimental therapeutics* major, a student must—
 - (a) have a GPA of 5 across courses from *year 2, semester 1; year 2, semester 2; and year 3, semester 1* in the BPharm(Hons) list; and
 - (b) satisfy the executive dean that, based on the student's academic record, the student is qualified to undertake the major.
- (2) Once eligibility is established, entry is via a competitive selection process based on GPA and project availability.

3 Program requirements

To complete the program, a student must complete 64 units from the BPharm(Hons) course list.

4 Class of honours

The class of honours is calculated on the basis of the GPA of the results obtained by a student in the first attempt at all courses undertaken at the university that contributed to years 2-4 of the program.

5 Special rules

5.1 Progression through program

- (1) A student who fails a course in the first 3 years of the program and is eligible under [PPL3.40.11 Enrolment - Procedures](#) may apply to the executive dean to enrol in that course in addition to the courses listed for the next year of the program.
- (2) Despite subrule (1), a student must not enrol in year 4 of the program without gaining credit for all courses in years 1, 2, and 3 of the BPharm(Hons) course list.

5.2 Award of the Bachelor of Pharmaceutics and Therapeutic Science

A student who withdraws from the program after completing 48 units, comprising of courses listed in years 1-3 of the course list, may be awarded the Bachelor of Pharmaceutics and Therapeutic Science.

5.3 Immunisation Schedule

- (1) At the commencement of the program, a student must complete a schedule of immunisations approved by the executive dean.
- (2) The requirement under subrule (1) may be waived only if—
 - (a) the student provides evidence of his or her status with respect to immunity against blood-borne transmissible viruses or other diseases prescribed in the schedule; or
 - (b) approved by the executive dean.

5.4 Blue card

At the start of the program, a student must obtain a blue card and thereafter hold a current blue card for the duration of the program.

6 Transitional

Students enrolled in the Bachelor of Pharmacy as at 31 December 2014 may be permitted to enrol in this program.
