

# Bachelor of Engineering (Honours)/ Bachelor of Commerce 2015 Dual Degree Program Structure

It is important that you read and understand the following information.

To be eligible to enrol in a dual degree program you must ensure that you satisfy the entry requirements for both programs.

Once enrolled it is your responsibility to ensure that you complete all the requirements for each section of this dual program in order to graduate with both degrees. The following information is designed to help you plan your enrolment to meet this goal. Further information can be found in the Official rules and Course lists under the **Program Rules and Requirements** link for each program in the Programs and Courses website: <http://www.uq.edu.au/study/>

You are not required to submit this program plan for approval. However, if you have any questions or concerns about meeting degree requirements, especially when you are nearing the end of your program, please contact the relevant Faculty for advice.

**Please note:** Students exiting early with one component of a dual degree must complete the single degree requirements of that component. Students will then be required to follow the single degree rules to complete the remaining component from that dual degree.

## **PROGRAM GUIDELINES**

- You must complete a total of #88 for the program.

### ***Bachelor of Engineering (Hons) Component Requirements***

- ❖ BE (Hons) Dual Degree students are not permitted to enrol in courses offered by other Faculties where there is an equivalent BE course. Restrictions apply to enrolment in ECON1050, ECON1310, MGTS1201, STAT1201. Details of specific course restrictions are available at: <http://www.eait.uq.edu.au/be-dual-programs>
- ❖ #52 from the BE (Hons) List comprising courses for the chosen BE (Hons) major and the balance, if any, from Part B electives or other courses approved by the executive dean.
- ❖ Study in any dual or extended major or major + minor in Engineering is not available under the dual degree rules. Students pursuing study in the dual BE (Hons)/BCom in these fields will need to enrol in concurrent dual degrees; it is strongly recommended that Centrelink be consulted about enrolment in the concurrent combination as entitlements or allowances may be affected.
- ❖ BE (Hons)/BCom students should discuss their enrolment plan with an academic advisor (<http://www.eait.uq.edu.au/eng-academic-advice>)

### ***Bachelor of Commerce Component Requirements:***

- ❖ #36 from the BCom List including –
  - #24 of compulsory courses from Group 1; and
  - Either:
    - #12 from one major in Group 2 (#6 must be at level 3); OR
    - #12 of elective courses from Group 3 (#6 must be at level 3, and only #2 may be at level 1).

#### **Note:**

- A) In constructing a course plan, students should pay particular attention to BE (Hons)/BCom Rule 5.1 and 5.2.
- B) Depending on your BE (Hons) major and whether you have completed Maths C (or equivalent), or other subject pre-requisites you may not be able to follow this program plan exactly. Please contact the First Year Engineering Advisor ([yr1eng@uq.edu.au](mailto:yr1eng@uq.edu.au)) for advice.
