

Important Information

It is your responsibility to ensure that you complete all the requirements for each component of this dual program in order to graduate with both degrees. The following information is designed to help you plan your enrolment to meet this goal.

Program Requirements

The Program Rules outline the requirements to complete the dual program and should be read in conjunction with the course list for each component of the dual program. The program rules are available on UQ's [Programs and Courses website](#) for the program, under 'Program Requirements', and the course lists under 'Component Degrees'.

Program Guidelines

Bachelor of Economics component:

- Students must successfully complete all BEcon Part A courses, excluding ECON1050 and ECON1310.
- Students must successfully complete 16 units with at least 8 units at level 3 for either one major in Part B or electives from Part C.

Bachelor of Science component:

- Students must complete at least one major or extended major.
- Students must complete at least 10 units of courses at level 3 or higher.
- Study planners for the Bachelor of Science majors.

Cross-listed Courses

A course can only count towards one dual program component. If the course is compulsory in one program, it must be counted towards that program component and you should select another course from the other course list at the same level or higher. If a course is compulsory in both programs, you may select which program it will count towards, and select another course at the same level or higher from the other program course list. For courses selected from the BSc course list, this does not include courses in the UQ minors list. Please check the special rules for the dual program as they may outline specific requirements for course substitutions.

Regardless of any possible cross-listing between programs, to meet the program requirements for the BSc component of your dual program, each:

- major must include 8 units of courses level 3 or higher,
- extended major must contain 12 units of courses at level 3 or higher, and
- minor must contain 4 units of courses at level 2 or higher

taken from and counting only towards that plan's course list.

Exiting Early

Students exiting early with one component of a dual degree must complete the single degree requirements of that component. Students will then be required to follow the single degree rules to complete the remaining component from that dual degree.

Global Experience

If you are planning on completing an overseas exchange, you may have to amend this plan. Students who would like an exchange experience in their program are encouraged to seek advice early in their program and be aware of the exchange deadlines: <https://employability.uq.edu.au/global-experiences>.

			Course 8 for BEcon Major or Part C Elective	2	Elective	Any Level course from BSc course list	2

¹ ECON1050 is incompatible with MATH1050 and MATH1051. If you are required to take MATH1050 or MATH1051 for the BSc, an exemption will apply for ECON1050. If you are exempt from ECON1050 you are required to take a 2 unit ECON course from Part C of the BEcon course list as a replacement.

² If chosen BSc major only requires 2 units of Level 1 prerequisite courses, students complete a course from the BSc course list.

³ **You may only complete one of ECON1310, STAT1201 or STAT1301:**

If you complete ECON1310, you must complete an additional course from the BSc course list.

If you complete STAT1201 or STAT1301, you must complete an additional course from part C of the BEcon course list.

If you are completing the **Statistics major or minor** in the BSc component of the dual program you must complete STAT1201 or STAT1301.
