

GEARE

Global Engineering Alliance for Research and Education

- GEARE is building deep strategic alliances with a select few of the most distinguished engineering programs across the globe.
- UQ participation with Purdue University
 - established the program
 - current UQ Abroad partner
 - Top American University
- **Integrates international study with internships and a multinational design team project.**
- Offers UQ students international experience in engineering through:
 - Regular UQ Abroad semester, plus;
 - Real work experience at a global corporation, and
 - Global design team project.
- Through GEARE, students can see the world, bridge cultural differences, share diverse approaches to design, and learn more about themselves.
