Jiexin Wang

Master of Commerce, 2nd Year

Studying at Copenhagen Business School in Denmark could be one of the best experiences of my degree at UQ. During the semester I visited lots of places in and around Denmark, and during the holidays, I travelled to 7 countries in Europe.

The CBS is a very modern and fashionable university. All teaching rooms are in a modern style with quality designs. The Solbjerg Plads is the main building of CBS next to the Federiskes city shopping center, the four story university library is also in it, and I took nearly all my classes there. You will easily find your classmates are from all over the world but most of them are Danes or from European countries. Do not be scared by the 4 hour exams, the time is definitely enough for you to do all the questions twice, they just want to give students plenty time to check their work to ensure a good grade.

I was living in a residential college not far from the university. They separate international students and the Danish students for living. I do not understand why, but you will find it is easy to communicate with all lodgers and you could rely on each other and probably make one or two really close friends there. Danish students speak very good English and if you love to drink, it is also no problem to make friends with them.

The University organized several trips during the semester. The photo on the left was when I was in Berlin in early September. It was a very romantic time for visiting anywhere in Europe. The picture on the right was taken in Norway in October. Yes! It was October and already heavily snowed there! I was amazing, that was the first time to see such heavy snow in my life.

Go there and explore Europe yourself!
