

Assessment of Language Proficiency

The student named below has applied to participate in UQ Abroad, UQ’s Student Exchange Program. As the student is applying to study at an institution where the courses are not taught in English, the UQ Abroad Office requires an assessment of their proficiency level in the required language. These assessments are normally obtained from the School of Languages and Comparative Cultural Studies.

**Recommended levels:\***

- B2/C1 or above: Student is ready to study at university in a foreign language.
- B1: Student requires at least another semester of study or an intensive language course before studying in the foreign language.
- A1/A2: Student should not be approved to take courses in a foreign language.

Please refer to the levels developed by the Common European Framework (see the other side of this form) to indicate the applicant’s current level of language proficiency for each of the language skills (by checking the appropriate skill/level box).
