Lifelong learning
We aim to launch a professional academy to deliver market-responsive programs and credentials for postgraduate and lifelong learning, supported by our landmark UQ Brisbane City and new online platforms.

Related achievements and initiatives
We developed a new website for short courses that will launch in early 2023.

Lifelong learning
We are fostering a sense of belonging and wellbeing for all learners, enriched by our vibrant campus cultures, rich residential options, world-class sporting facilities and highly valued student services.

How we are achieving this
We delivered a rolling orientation program in Semester 1 to welcome back students and build a sense of belonging. The program incorporated traditionally popular offerings, such as library tours and training sessions, as well as new engagement events such as faculty expo, an international student breakfast, Connect Week welcome barbecue, and new ‘Get to know your Library’ sessions at St Lucia and Gatton. Service ambassadors were employed, the Student Central Service Delivery Model was introduced, and queuing software and footfall counters were installed. We also progressed a range of new building environment projects and embedded Course We also progressed a range of new built activities. Website resources to support environment projects and embedded Course We also progressed a range of new built software and footfall counters were installed.

Related achievements and initiatives
- We created a Reconciliation Garden at Herston and green spaces at St Lucia.
- We signed a relationship framework with any new product development, particularly postgraduate coursework and stackable short form credentials such as science teaching credits articulating to the Master of Educational Studies.
- In Semester 2, we trialled 47 individual fully online programs at graduate certificate, graduate diploma and master’s level through the Open Universities Australia scheme – attracting interest from more than 300 prospective students.
- Potential partnership models were reviewed, based on analysis of the online program manager market.
- We designed a business case process for the development of new programs and short courses.
- We defined a product catalogue and developed a new website for short courses that will launch in early 2023.

Measures of success
2. Research and innovation
Through our commitment to conducting world-leading discovery research and collaborating with our partners to translate our research discoveries, we seek to not only create new knowledge but share it in ways that enrich our communities, our economy and the environment.

Research roadmap for mission-driven research
We are implementing a research roadmap to ensure the ongoing excellence of our world-class research capabilities, facilities and collaborative networks. We aim to connect the strengths and leadership of our comprehensive discipline profile to deliver mission-driven research that is aligned with industry, government and community priorities.

How we are achieving this
We launched the HERA scheme, a major Vice-Chancellor’s Strategic Initiative over 7 years, with the first appettite commencing in September 2022.
- We launched the HERA scheme, a major Vice-Chancellor’s Strategic Initiative over 7 years, with the first appettite commencing in September 2022.
- We secured $50 million in May under the Federal Government’s Trailblazer Universities Program to establish a new Food and Beverage Accelerator to nurture innovation in Australia’s agricultural, food and beverage sector. UQ is also a partner in another successful Trailblazer program – the Resources Technology and Critical Minerals hub, led by Curtin University.

Research roadmap for mission-driven research
We are implementing a research roadmap to ensure the ongoing excellence of our world-class research capabilities, facilities and collaborative networks.

How we are achieving this
- In Semester 2, we trialled 47 individual fully online programs at graduate certificate, graduate diploma and master’s level through the Open Universities Australia scheme – attracting interest from more than 300 prospective students.
- Potential partnership models were reviewed, based on analysis of the online program manager market.
- We designed a business case process for the development of new programs and short courses.
- We defined a product catalogue and developed a new website for short courses that will launch in early 2023.
Partnerships
Our goal is to foster mutually beneficial partnerships for research translation and commercialisation at scale, to create positive impact for our communities, the environment and economy.

How we are achieving this
In preparing to develop a new partnerships and translation strategy, we implemented a Research Partnerships Review that saw both a Community of Practice and a Pipeline of Projects and Partnerships through the UQ Commercialisation Action Plan established during the year. This will feed into the Research Roadmap implementation as well as the convening of a cross-organisational partnership community.

Related achievements and initiatives
- UQ signed a partnership agreement with the Queensland Government, Griffith University and global healthcare company Sanofi to establish a significant new mRNA vaccine research facility in Brisbane.
- The Queensland Alliance for Agriculture and Food Innovation (QAAFI) partnered with the German Research Foundation (DFG) to establish the International Research Training Group for researching genetic improvements in cereal and pulse crops.
- The Australian Institute for Bioengineering and Nanotechnology (AIBN) successfully launched Australia’s first Advanced Biomanufacturing Nuclear Acid facility (BSAFE), a joint initiative with the National Biologics Facility and Protein Expression Facility, and supported by Therapeutics Australia Innovation Australia.
- Global medical technology group Stryker will establish its first Australian research and development facility in Queensland, with support from the Queensland Government, UQ and QUT.
- The Queensland Brain Institute (QBI) signed a research Memorandum of Understanding with the University of Washington.
- We appointed an Executive Director (Research Partnerships) to advance research partnerships with industry.
- QAAFI’s TropAg conference was held in mid-2023.

Research community
We support the development of our research community, including professional staff and HDR students, empowering them to thrive and excel in the evolving research and innovation ecosystem.

How we are achieving this
Work began on implementing a Researcher Development Framework to empower and support diverse career pathways for academics and professional staff. This included the development of the UQ Spark – Industry Engagement 5Ks program for Level 8 and C academics.

Related achievements and initiatives
- We continued to improve the Career Development Framework.
- We provided system and community of practice support for HDR student engagement with industry placements.
- UQ rolled out Stage 2 of its Global Challenges HDR cohort program, attracting 25 PhD (Doctor of Philosophy) candidates to work on at least 5 industry-focused research projects.
- IMB developed biopaque training, a professional certificate, online courses, contractual and public workshops, and regular webinars for its stakeholders.
- The Faculty of Medicine developed a clinician-researcher guide, support mechanisms for research-focused academics and HDR supervisors - including an online ‘toolbox’ for community engagement – and an internship for research-focused staff.
- The PhD stipend will increase to $32,192 from 1 January 2023.

Trusted research
We aim to ensure our research policies, practices and systems uphold our strong institutional commitment to trusted research and innovation.

How we are achieving this
Organisation-wide planning and preparations for the ERA assessment exercise began during the year for the next round, which will likely take place in 2024-2025. In the latest ERA assessment in 2018, we were assessed in 94+4-digit Fields of Research, with 100% rated at world standard or above. UQ was rated above world standard in more specialised fields of research than any other Australian University. Preparations did not commence on the EI assessment as the ARC announced in December that the 2024 exercise would not proceed.

Related achievements and initiatives
- 51 UQ researchers and research teams received grants (to commence in 2023) totalling $25 million under the ARC Discovery Projects scheme, the second highest number nationally.
- Our interdisciplinary Tobacco Endgame Research Network received a $3 million grant under the NHMRC’s Synergy scheme to help reduce smoking.
- In order to meet security obligations when engaging in defence-related research projects, we applied for institutional membership of the Defense Industry Security program.
- QAAFI staff completed the ORCID-funded Sarghin pre-broadening with the transfer of a project to the satisfaction of commercial partners.
- The Faculty of Science continued to monitor and manage regulatory compliance with research protocols, including a review of the equine and closure of the piggy at UQ Gatton.
- Work continued on systems upgrades to bolster the University’s research infrastructure, including rolling out the Research Infrastructure Management System 2 and preparing for the MyResearch Projects system.

We seek to enrich communities here in Queensland, and around the world. Our commitment to leading reconciliation, global development and capacity building; broadening access to education; and leveraging our research impact to strengthen the economy demonstrate just some of the ways in which we will deliver for the public good.

Measures of success 3. Enriching our communities

- We delivered the InnovateU Program, bringing Aboriginal and Torres Strait Islander high school students from across the state for a week-long camp at St Lucia.
- We grew the You’re a Winner Program, which supports the tertiary and career aspirations of senior secondary school students from disadvantaged backgrounds by engaging and mentoring them throughout their academic journey and beyond.
- We strengthened the UQ College Foundation Year program to provide a direct pathway into the University for undergraduate international students.
- We delivered a Breakfast Club webinar series to strengthen knowledge and university pathway options.
- We established a new Government Relations office within the University.
- We established a research working group to promote and support high-quality health research for rural communities, including allied health placements at Chinchilla and St George.
- With the 2019–2022 Innovate Reconciliation Action Plan (RAP) successfully implemented, work began on developing the 2023–2026 Stretch RAP further embedding.

The Queensland Commitment
Through our Queensland Commitment, we are broadening access to higher education, and working in partnership to address our state’s priorities, including those relating to the health workforce and economic diversification.

How we are achieving this
The Queensland Commitment was officially launched in August to break down the personal, financial and geographical barriers facing students aspiring to study at UQ. The core focus of the pledge is on increasing philanthropic funding to provide sustainable, needs-based scholarships for future scholars, particularly those from regional, remote or low-socio-economic backgrounds, as well as Aboriginal and Torres Strait Islander students. Other initiatives include expanded pathway programs, extensive regional and rural outreach, and accommodation support. We aim to strengthen our engagement with core educational, health, industry and arts partners throughout the state, to deliver transformative change.

Related achievements and initiatives
- We conducted Regional Roadshows across the state so students can discover more about UQ and how it can foster the growth, health and prosperity of communities across Queensland.
- We invited alumni and the broader community to support the ambitions of The Queensland Commitment by volunteering with UQ, sharing their stories, or becoming a UQ ambassador.

Reconciliation and Indigenous excellence
Our aim is for Reconciliation to be business as usual through the successful development and implementation of ourStretch Reconciliation Action Plan (RAP), and we report on the continued development of Indigenous excellence as defined by Indigenous peoples, in collaboration with the broader UQ community.

How we are achieving this
With the 2019–2022 Innovate Reconciliation Action Plan (RAP) successfully implemented, work began on developing the 2023–2026 Stretch RAP further embedding.
