

Bachelor of Engineering (Honours) / Bachelor of Biotechnology (Honours)

1 Definitions

In these rules—

BBiotech(Hons) list means BBiotech(Hons) course list for the *bioprocess technology* field;

BE(Hons) list means the BE(Hons) course list for the *chemical engineering* field of study;

compulsory courses means all compulsory courses required for the Bachelor of Biotechnology (Honours) in the *bioprocess technology* field of study;

major in the BE(Hons) means 50 units as set out for the *chemical engineering* field of study.

2 Program requirements

- (1) To complete the program, a student must complete 88 units, comprising—
 - (a) 52 units from the BE(Hons) list, comprising—
 - (i) a major in chemical engineering; and
 - (ii) 2 units from part B electives or other courses approved by the executive dean; and
 - (b) 36 units from BBiotech(Hons) list including compulsory courses.
- (2) Unless a different intention appears in these rules, a student must comply with the program rules for both degrees.

3 Concurrent enrolment

A student must maintain concurrent enrolment in both constituent degree programs.

Note The dual degree is a single program of study leading to the simultaneous award of two degrees. A student is not permitted to graduate with one degree and continue enrolment in the program.
