

## Bachelor of Mathematics

### 1 Definitions

In these rules—

*approved combination* means a combination of courses approved by the executive dean;

*late year course* means a course at level 3 or higher

*major* means an approved combination of 16 units from part B of the BMath course list;

*minor* means an approved combination of 8 units from part D of the BMath course list.

### 2 Field of study

A student may undertake the program in an approved major and/or minor.

### 3 Program requirements

- (1) To complete the program, a student must complete 48 units from the BMath course list, comprising—
  - (a) 14 units from part A
  - (b) 14 units from part B or part C or a combination of both; and
  - (c) 4 units from the BMath course list; or part A or part B of the BSc course list, or courses approved by the associate dean (academic); and
  - (d) 16 units from the BMath course list; or any other program list.
- (2) For rule 3(1), a student must gain 8 units for late year courses from part A or part B of the BMath course list or a combination of both.
- (3) A student can gain no more than 24 units of level 1 courses in the program.
- (4) For rule 3(1)(d), a student must gain 8 units for courses not coded MATH or STAT.

### 4 Maximum credit for other study

- (1) The maximum credit that the associate dean (academic) may grant to a student for other study is 32 units.
- (2) Despite subrule (1), the associate dean (academic) may only grant 2 units towards the 8 units of late year courses listed in 3(2) on the basis of prior study.

*Note* see [PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning](#)
