Master of Conservation Biology (MConsBiol)

1 **Enrolment requirements**
   
   To enrol in the program a person must hold an approved degree in biology with a specialisation in ecology, evolution, zoology or botany (or equivalent) or an undergraduate degree in environmental science.

2 **Program requirements**
   
   To complete the program, a student must complete 24 units from part A of the MConsBiol course list.

3 **Maximum credit for other study**
   
   The maximum credit that the associate dean (academic) may grant to a student for other study is 8 units.

   *Note: See PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning.*

4 **Special rules**

   4.1 **Supplementary Examinations/Assessment**
   
   In addition to PPL 3.10.09 Supplementary Assessment, the associate dean (academic) may award supplementary assessment to a student who gains a grade of 3 in one or more courses in the first semester of enrolment in the program.

   4.2 **Award of the Graduate Certificate in Conservation Biology**
   
   A student who withdraws from the program after completing 8 units may be awarded a Graduate Certificate in Conservation Biology.
