

Bachelor of Mathematics (BMath)

1 Definitions

In these rules—

major means a prescribed combination of 16 units from the major section of the BMath course list;

minor means a prescribed combination of 8 units from the minor section of the BMath course list;

plan means a major or minor in the BMath.

2 Program requirements

- (1) To complete the program, a student must complete 48 units, comprising—
 - (a) 32 units from the BMath course list, comprising—
 - (i) 12 units for core courses, and
 - (ii) 16 units for a major, and
 - (iii) 4 units from the BMath course list; and
 - (b) 16 units of courses from the BMath course list or other course lists.
- (2) A student must complete at least 8 units of courses coded neither MATH nor STAT.
- (3) A student must complete no more than 24 units of level 1 courses.

3 Program plan

- (1) Each major must include 8 units of courses at level 3 or higher, taken from that major's course list and counted towards no other plan.
- (2) Each minor must include 4 units of courses at level 2 or higher, taken from that minor's course list and counted towards no other plan.
- (3) A student may complete a second major, and/or one or more minors.
- (4) Students undertaking the Data Analytics and Operations Research major are not permitted to undertake the Statistics minor.
- (5) Where the program is undertaken with more than one plan, any course listed more than once must be substituted in one plan by a course at the same level or higher from the course list for that plan, or from the BMath course list.

4 Maximum credit for other study

The associate dean (academic) may only grant 4 units of credit towards courses at level 3 or higher, on the basis of prior study.

5 Special rules

A student enrolled in the [Bachelor of Mathematics \(2393\)](#) may be permitted to enrol in this program.
