

Bachelor of Engineering (Honours) / Bachelor of Biotechnology (Honours)

1 Definitions

In these rules—

part A means part A of the BBiotech(Hons) list;

part B means part B of the BBiotech(Hons) list;

part B4 means part B4 of the BE(Hons) *chemical engineering* list;

part C means part C of the BBiotech(Hons) list;

major in the BE(Hons) means 52 units as set out for the *chemical engineering* field of study.

2 Field of study

- (1) A student must undertake the BE(Hons) component of the dual program in the field of *chemical engineering*.
- (2) A student must undertake the BBiotech(Hons) component of the dual program in the field of *bioprocess technology*.

3 Program requirements

- (1) To complete the program, a student must complete 88 units, comprising—
 - (a) 52 units from the BE(Hons) list, comprising a major in *chemical engineering* which must include CHEE4020 from part B4; and
 - (b) 36 units from BBiotech(Hons) list, comprising—
 - (i) 20 units from part A for the *bioprocess technology* major including all compulsory courses except CHEE2001, CHEE4020, CHEM1100, CHEM1200, MATH1051, MATH1052 and STAT1201; and
 - (ii) either—
 - (A) 16 units from part B, or
 - (B) 16 units from part C.
- (2) Unless a different intention appears in these rules, a student must comply with the program rules for both degrees.

4 Concurrent enrolment

A student must maintain concurrent enrolment in both constituent degree programs.

Note The dual degree is a single program of study leading to the simultaneous award of two degrees. A student is not permitted to graduate with one degree and continue enrolment in the program.
