

Bachelor of Engineering (Honours) / Bachelor of Design (BE(Hons)/BDes)

1 Definitions

In these rules—

BDes major means a prescribed combination of 16 units as set out in the BDes course list;

BE(Hons) core courses means those courses listed in “Core Courses” in the BE(Hons) course list;

BE(Hons) specialisation means a prescribed combination of 36 units as set out in the BE(Hons) course list.

2 Program requirements

- (1) To complete the program, a student must complete 88 units from the BE(Hons)/BDes course list, comprising—
 - (a) 56 units from the BE(Hons) component, comprising—
 - (i) 8 units for BE(Hons) core courses, and
 - (ii) 36 units for a BE(Hons) specialisation, and
 - (iii) 12 units for specified BE(Hons) electives relevant to the specialisation; and
 - (b) 32 units from the BDes component, comprising—
 - (i) 16 units for part A, and
 - (ii) a BDes major.
- (2) Unless a different intention appears in these rules, a student must comply with the program rules for both constituent degrees.

3 Program plan

- (1) A student enrolled in this program must undertake the BE(Hons) component of the dual program in an approved specialisation.
- (2) A student enrolled in this program must undertake the BDes component of the dual program with an approved major.
- (3) A student undertaking the Software Engineering specialisation in the BE(Hons) must not complete the Information Environments major in the BDes.

4 Special Rules

4.1 Courses in both course lists

- (1) Where a course is compulsory in both the BE(Hons) and BDes components of the dual program, it must be counted towards the BE(Hons) component and replaced in the BDes component with a course from the BDes course list at the same level or higher.
- (2) Where a course is compulsory in one component of the dual program but not the other, it must be counted towards the component in which it is compulsory.
- (3) Where there is a choice as to which courses count towards each component of the dual program, the highest graded courses will count towards the BE(Hons) and the balance towards the BDes.
