Master of Conservation Biology (MConsBiol)

1 Enrolment requirements
   To enrol in the program a person must hold an approved degree in biology with a
   specialisation in ecology, evolution, zoology or botany (or equivalent) or an undergraduate
   degree in environmental science.

2 Program requirements
   To complete the program, a student must complete 24 units from part A of the MConsBiol
   course list.

3 Maximum credit for other study
   The maximum credit that the associate dean (academic) may grant to a student for other study
   is 8 units.
   Note: See PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning

4 Special rules
4.1 Award of the Graduate Certificate in Conservation Biology
   A student who withdraws from the program after completing 8 units may be awarded a
   Graduate Certificate in Conservation Biology.
