Master of Data Science (32 units)

1 Definitions
   In these rules—
   
   *partner institution* means an overseas institution with whom The University of Queensland has a formal agreement as an official partner with the Master of Data Science program.

2 Enrolment requirements
   To enrol in the program, a person must—
   (a) either—
      (i) hold an approved degree in mathematics or statistics or computing or a related discipline; or
      (ii) have successfully completed at least three years of study towards an approved program at a partner institution; and
   (b) satisfy the executive dean, that based on their academic record, they are suitably qualified for admission.

3 Program requirements
   To complete the 32-unit program, a student must complete 32 units in accordance with the MDataSc program course list.
   
   *Note a separate set of rules apply to students enrolled in the Master of Data Science (24 units) program.*

4 Maximum credit for other study
   The maximum credit that an associate dean (academic) may grant to a student for previous study is 8 units.
   
   *Note see* PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning

5 Special rules

5.1 Award of the Graduate Certificate in Data Science
   A student who withdraws from the program after completing a combination of 8 units from part A and part B of the MDataSc course list (with at least 4 units of DATA coded courses, including DATA7001) may be awarded a Graduate Certificate in Data Science.
