

### Master of Occupational Health and Safety Science (32 units)

#### 1 Definitions

In these rules—

*first year university level science* means two or more university level courses that cover human anatomy, human physiology, organic chemistry, inorganic chemistry and/or physics.

*partner institution* means an overseas institution with whom The University of Queensland has a formal agreement as an official partner with the Master of Occupational Health and Safety Science (32 units) program.

#### 2 Enrolment requirements

To enrol in the program, a person must—

- (a) either—
  - (i) hold an approved degree in any discipline and have completed first year university level science; or
  - (ii) have successfully completed at least three years of study towards an approved program at a partner institution; and
- (b) satisfy the executive dean that the person is suitably qualified for admission.

#### 3 Program requirements

To complete the program, a student must complete 32 units from the MOHSSc course list comprising—

- (a) 30 units for part A; and
- (b) 2 units from part B, or other courses as approved by the associate dean (academic).

#### 4 Maximum credit for other study

The maximum credit that the associate dean (academic) may grant to a student for other study is 8 units.

*Note* see [PPL 3.50.03 Credit for Previous Studies and Recognised Prior Learning](#).
