

Bachelor of Engineering (Honours)/ Bachelor of Business Management 2018 Dual Degree Program Structure

It is important that you read and understand the following information.

To be eligible to enrol in a dual degree program you must ensure that you satisfy the entry requirements for both programs.

Once enrolled it is your responsibility to ensure that you complete all the requirements for each section of this dual program in order to graduate with both degrees. The following information is designed to help you plan your enrolment to meet this goal. Further information can be found in the Official rules and program lists under the **Program Rules and Requirements** link for each program in the Programs and Courses website: <https://my.uq.edu.au/programs-courses/>.

You may need to amend this plan depending on your choice of major. You are not required to submit this program plan for approval. However, if you have any questions or concerns about meeting degree requirements, especially when you are nearing the end of your program, please contact the relevant Faculty for advice.

Please note: Students exiting early with one component of a dual degree must complete the single degree requirements of that component. Students will then be required to follow the single degree rules to complete the remaining component from that dual degree.

PROGRAM GUIDELINES

You must complete a total of 88 units to satisfy requirements for the dual program.

Bachelor of Engineering (Hons) Component Requirements

- ❖ BE(Hons) Dual Degree students are not permitted to enrol in courses offered by other Faculties where there is an equivalent BE(Hons) course. Restrictions apply to enrolment in ECON1050, ECON1310, BISM1201, STAT1201. Details of specific course restrictions are available at: <http://www.eait.uq.edu.au/be-dual-programs> and <https://www.eait.uq.edu.au/bachelor-engineering-electives>
- ❖ 52 units from the BE(Hons) course list, comprising -
 - (i) a BE(Hons) major.
 If preparatory math or science courses are required (from Part B0 of the BE(Hons) course list i.e. MATH1050, CHEM1090, PHYS1171) these must be completed in addition to the engineering major requirements. Adding Part B0 courses to the program means it may not be possible to complete in the minimum time, although summer semester enrolments may assist.
- ❖ BE(Hons)/BBusMan students should discuss their enrolment plan with an academic advisor (<http://www.eait.uq.edu.au/eng-academic-advice>)

Bachelor of Business Management Component Requirements:

- ❖ 36 units from the BBusMan List including –
 - (i) 24 units of compulsory courses from Group 1; and
 - (ii) Either:
 - (1) 12 units from one major in Group 2 (minimum 6 units must be at level 3); OR
 - (2) 12 units of elective courses from Group 3 (minimum 6 units must be at level 3, and maximum 2 units may be at level 1).

Note:

- A) In constructing a course plan, students should pay particular attention to BE(Hons)/BBusMan Rule 5.1

13/11/2017

B) Depending on your BE(Hons) major which is usually selected after first year, will determine the BE(Hons) study plan structure. Please contact the First Year Engineering Advisor (yr1eng@uq.edu.au) for advice.
