

Bachelor of Mathematics/Bachelor of Economics 2019 Dual Program Structure

It is important that you read and understand the following information about your dual program.

It is your responsibility to ensure that you complete all the requirements for each section of this dual program in order to graduate with both degrees. The following information is designed to help you plan your enrolment to meet this goal. Further information can be found in the Official Rules and Course lists under the **Program Rules and Requirements** link for each program in the Programs and Courses website: https://my.uq.edu.au/programs-courses/program.html?acad_prog=2395

You are not required to submit this program plan for approval. However, if you have any questions or concerns about meeting program requirements, especially when you are nearing the end of your program, please contact the relevant Faculty for advice. For advice on the BMath component of your degree please contact the Faculty of Science. For advice on the BEcon component of your degree please contact the Faculty of Business, Economics and Law.

Please note: Students exiting early with one component of a dual degree must complete the single degree requirements of that component. Students will then be required to follow the single degree rules to complete the remaining component from that dual degree.

PROGRAM GUIDELINES

You must complete a total of 64 units for both degrees.

Bachelor of Mathematics component requirements:

32 units towards the BMath component, comprising:

- 14 units from Part A of the BMath course list; and
 - 14 units from Part B or Part C of the BMath course list, or a combination of both; and
 - 4 units from the BMath course list, or Part A or Part B of the BSc course list, or courses approved by the Associate Dean (Academic).
- Students may complete a major in an area defined in Part B by completing an approved combination of 16 units.
 - Students must complete a minimum of 8 units late year courses from Part A and B and no more than 24 units of Level 1 courses can be included in the program.
 - Recommended study plans for each major can be found at: <http://planner.science.uq.edu.au/content/bachelor-of-mathematics>
 - Please contact the Faculty of Science on (07) 3365 1888 for more information.

Note: A 'late year' course means a course at Level 3 or higher.

Bachelor of Economics component requirements:

32 units from the BEcon List comprising:

- 18 units from Group 1 (not including ECON1050 or ECON1310); and
- 14 units (with no more than 6 units from level 1 courses and at least 8 units at level 3) from either:
 - o one major in Group 2 (6 units must be at level 3) and 2 units from Group 3; or
 - o elective courses from Group 3 with no more than 4 units of non-ECON coded courses.

BACHELOR OF MATHEMATICS/BACHELOR OF ECONOMICS 2019 DUAL DEGREE PROGRAM PLANNER – SEMESTER 1 COMMENCEMENT

You can use this outline to plan your program (if you are commencing in semester 2, refer to the plan on page 3).
