

Important Information

It is your responsibility to ensure that you complete all the requirements for each component of this dual program in order to graduate with both degrees. The following information is designed to help you plan your enrolment to meet this goal.

The Program Requirements, available on [UQ's Programs and Courses](#) website, outline the requirements to complete the dual program.

Program Guidelines

Bachelor of Science component:

- 32 units from the BSc course list, with a minimum of 10 units of courses at level 3 or higher, including —
 - 4 units for core courses, and
 - 16 units for a major or 24 units for an extended major, and
 - the balance of units from the BSc course list
- Students must complete at least one major or extended major.

Note: UQ minors are offered in the single BSc program only and are not available in the BSc dual program.

Bachelor of Arts component:

- 32 units from the BA List (courses listed under BA majors) including either—
 - Two BA Majors of 16 units each; or
 - One BA Extended Major of 24 units plus a BA Minor of 8 units.

Cross-listed Courses

A course can only count towards one dual program component. If the course is compulsory in one program, it must be counted towards that program component and you should select another course from the other course list at the same level or higher. If a course is compulsory in both programs, you may select which program it will count towards, and select another course at the same level or higher from the other program course list. For courses selected from the BSc course list, this does not include courses in the UQ minors list. Please check the special rules for the dual program as they may outline specific requirements for course substitutions.

Regardless of any possible cross-listing between programs, to meet the program requirements for the BSc component of your dual program, each:

- major must include 8 units of courses level 3 or higher,
- extended major must contain 12 units of courses at level 3 or higher, and
- minor must contain 4 units of courses at level 2 or higher

taken from and counting only towards that plan's course list.

Exiting Early

Students exiting early with one component of a dual degree must complete the single degree requirements of that component. Students will then be required to follow the single degree rules to complete the remaining component from that dual degree.

Global Experience

If you are planning on completing an overseas exchange, you may have to amend this plan. Students who would like an exchange experience in their program are encouraged to seek advice early in their program and be aware of the exchange deadlines: <https://employability.uq.edu.au/global-experiences>

Require Further Assistance?

If you require assistance planning your program or have concerns about meeting program requirements, please contact the relevant Faculty for advice:

		Level 3 Course	Level 3 course from major list	2			2

For the BSc component of the dual program, students completing a single major + minor will require one of the following due to amount of units required:

- Complete a Level 3 (or higher) course towards the minor*; or
- Count 2 units towards both the major and minor requirements (excluding Level 3 courses); or
- Only 2 units of prerequisite courses for the major.

*Option (a) is displayed in the study planner above.

¹ If chosen BSc major only requires 2 units of prerequisites, complete course from BSc minor

² If already completed requirements for minor, must complete a Level 3 course from BSc course list.
